

INSTITUTE OF DENTAL SCIENCES, BAREILLY.
Department Of Oral & Maxillofacial Surgery
IMPACTED MANDIBULAR THIRD MOLAR TOOTH

O.P .D. NO.:

Date:

Name:

Age/Sex:

Occupation:

Religion:

Address:

Contact No:

Chief Complaint:

History of Present Illness:

Past Medical History :

Past Dental History :

Drug History :

Family History :

Personal History :

i. Habits:

GENERAL PHYSICAL EXAMINATION

Vital signs

- i. Temperature : ° Celsius
- ii. Blood pressure : mm of Hg
- iii. Pulse rate : Beats / Min
- iv. Respiratory rate : cycles/min

SYSTEMIC EXAMINATION

- i. CVS :
- ii. CNS :
- iii. Respiratory system :
- iv. Endocrine system :

MISCELLANEOUS

- i. Pallor :
- ii. Icterus :
- iii. Cyanosis :
- iv. Clubbing :
- v. Keloid :
- vi. Lymphadenopathy :
- vii. Oedema :

EXTRA ORAL EXAMINATION

A. INSPECTION

- i. Face symmetry :
- ii. Deviation of Jaw :
- iii. Mouth opening(in mm) :
(Inter Incisal Distance)
- iv. Jaw Size : :

B. PALPATION

- i. TMJ(clicking & popping) :
- ii. Lymph nodes :

INTRA ORAL EXAMINATION

General assessment

A. INSPECTION

- i. Mouth opening (Inter Incisal Distance):
- ii. Occlusion :
- iii. Hard Tissue :
 - a. No. of Teeth Present:
 - b. Missing Teeth :
 - c. Dental Caries :
 - d. Others :

8	7	6	5	4	3	2	1	1	2	3	4	5	6	7	8
8	7	6	5	4	3	2	1	1	2	3	4	5	6	7	8

- iv. Soft Tissues :
 - a. Labial Mucosa :
 - b. Buccal Mucosa :
 - c. Alveolar Ridge :
 - d. Gingiva :
 - e. Buccal/ Lingual and Labial Vestibules:
 - f. Retromolartrigone :
 - g. Tongue :
 - h. Floor of Mouth :
 - i. Hard Palate :
 - j. Soft Palate :

B. PALPATION

- i. Tenderness :
- ii. Mobility of Teeth :
- iii. Vestibule :

C. PERCUSSION:

Assessment of impacted tooth

- i. Carious :
- ii. Gingival Inflammation(present/absent):
- iii. Fibrosis (present/absent) :
- iv. Soft tissue coverage :
(Partial/ complete)
- v. Tenderness on Percussion :

Condition of adjacent tooth

- i. Any caries :
- ii. Restoration :
- iii. Root pattern :
- iv. **Periodontal involvement**
 - a. *Mobility* :
 - b. *Bone loss* :

Condition of the opposing tooth:

- i. Present/absent :
- ii. Relation :
- iii. Position (N/B/SE) :
- iv. Impingement on soft tissue:
- v. Carious :

PROVISIONAL DIAGNOSIS:

INVESTIGATIONS:

A. Radiographic Assessment (IOPAR & OPG)

i. Position of external oblique ridge

ii. Crown root width ratio

iii. Number of roots

iv. Root morphology

v. Root resorption of second molar

vi. Pell & Gregory's Classification

1. Winter's Classification :

2. Class :

3. Position / Level: A/B/ C :

vii. Pederson's difficulty index :

1. Angulation of impaction :

2. Pell and Gregory's class :

3. Pell and Gregory's level position :

TOTAL SCORE : / 10

FINAL DIAGNOSIS :

LAB INVESTIGATIONS

i. HIV :

ii. HCV :

iii. HBsAg :

iv. HB% :

v. RBS :

TREATMENT PLAN

Surgical Procedure / Operative notes:

Post- Operative Medications:

Complications

- i. Intra- operative (incision to closure) :
- ii. Post operatively :
- iii. Follow-up :
