ROHILKHAND MEDICAL COLLEGE AND HOSPITAL- BAREILLY	DOC.NO.	RMCH/HCM/01
	ISSUE NO.	1
HOSPITAL COMMITTEE MANUAL	REV. NO.	1
	DATE	15.07.2022

### Purpose:

Hospital Quality Management Committee (QMC) will be the Highest Executive Quality Improvement Authority in the hospital. The committee will, in summary, reflect hospital's endless top management commitment to Continuous Quality Improvement (CQI). Chaired by Director/ CMS/ Hospital Director and attended by the key Directors and Department Heads; Hospital Quality Management Committee shall be responsible for overall planning, directing, prioritizing, implementing and follow up of all CQI initiatives and activities in the hospital. On the other hand, The Quality Management Committee shall ensure that, all necessary resources required for successful QM Plan Implementation are devoted at all functional levels.

### Scope & Function:

**Responsibilities, as pertinent to Quality Improvement include but not limited to the followings:**

1. Develop (in coordination of Quality Management Department) / approve a Facility wide Quality Management Plan.
2. Integrate the overall Quality Management Plan and serve as a clearing house for improvement activities.
3. Oversee, coordinate, direct and prioritize Quality improvement activities. A high priority for the QMC will be the monitoring of the delivery of care whenever a new service is developed with particular emphasis on the transition and development period.
4. Assure the formation of cross-organizational work groups [Departmental Quality Improvement Teams (DQIT)] to assess each function and identify the processes and activities within that function that are high volume, high risk and/or problem prone.
5. Receive reports monthly or quarterly from each department/service as appropriate and prepare reports on organizational Quality improvement activities.
6. Enforce the implementation of Plan, Do, Check, and Act methodology.
7. Review monitoring results that reflect the functions and activities provided by the staff in different disciplines (administrative, medical and non-medical) within the facility.
8. In coordination with Quality Management Department, QMC will provide reports to the hospital Director
9. Receive and evaluate Quality improvement team reports concerning specific activities for improving organizational Quality.
10. Oversee, coordinate and provide appropriate Quality Improvement information to the concerned departments and sections (both external & internal)
11. Review and revise the performance indicators and standards/thresholds periodically based on evidence/data collated so as to continuously improve the quality of Services provided

ROHILKHAND MEDICAL COLLEGE AND HOSPITAL- BAREILLY	DOC.NO.	RMCH/HCM/01
	ISSUE NO.	1
HOSPITAL COMMITTEE MANUAL	REV. NO.	1
	DATE	15.07.2022

12. Appointment of resource at the position of quality assurance and improvement coordinator to oversee the obtaining and maintaining of the quality standards and dealing with complaints (if any)
13. Initiate regular reviews by the independent specialist in the relevant fields of clinical practices used in the Hospital in providing the Healthcare Services
14. Ensure obtaining the NABH Accreditation and maintaining the same.
15. Problems that are referred to the QMC through any of the quality management activities, or identified by the QMC from a study of reports or communications, will be reviewed by the QMC. The committee will ensure that the responsible department, service or team is taking appropriate corrective action plans, prioritization and monitoring steps, and activities. Departmental Quality improvement teams will report on their activities for improving organizational Quality to Top management of the organization Such written and verbal reports are due at the time of presentation at QMC meeting.

The QMC will assist in planning for improvising the organizational Quality or evaluating new services. The following steps will be established:

- **Organize teams:** (multidisciplinary groups/committees, focus groups, task forces) The members of which will be empowered to implement decisions over the key elements in the process(es) of delivering services for which improvement efforts are to be made.
- **Identify the customers:** Patients, Relatives, Doctors, Nurses, Clinics, Departments, and Operating room staff any other individual or group of individuals who will be the recipients of products and/or services.
- **Identify the products and/or services of importance to the customers:** The patient's and family/other's perception of the quality of health care rendered and staff's opinion will be considered. Examples of areas for improvement may include: A warm meal, a parking space, an improved perceived quality of life, a short wait for pain medication, a nice atmosphere in the waiting area, and privacy in discussions with providers. Additional areas for improvement may include faster test results, improved communication between nurses and doctors, or any other aspect or relationships subjective or objective that may be important to the customers.
