## FIELD VISIT TO JAIL, IZZATNAGAR

The Department of Public Health Dentistry at the Institute of Dental Sciences, Bareilly, organized an educational field trip to Central Jail, Bareilly. The visit aimed to understand the working of the jail, conduct oral screening for inmates, and provide dental health education. A group of postgraduate students and interns participated in this initiative, reinforcing the importance of oral health within vulnerable communities.

On 13.02.2025, the group arrived at Central Jail, Bareilly, and was warmly welcomed by jail authorities. A brief orientation session was conducted, where officials explained the structure and functioning of the jail, including inmate management, security protocols, and rehabilitation programs. The students gained insights into living conditions, healthcare facilities, and vocational training programs available for prisoners. Many inmates exhibited signs of poor oral hygiene, with a considerable number suffering from untreated dental caries and gum infections. Tobacco consumption was found to be a leading cause of oral health issues, highlighting the need for immediate intervention and awareness.

The field trip to Izzatnagar Jail, Bareilly, was a valuable learning experience for the students, providing firsthand exposure to oral health challenges in institutional settings. The initiative successfully contributed to inmate well-being by conducting screenings and spreading awareness. Overall, the visit emphasized the importance of extending dental healthcare services to marginalized communities, reinforcing the social responsibility of healthcare professionals.

## A Report on Field Visit to

## Central Jail , Bareilly

An educational trip to the central jail organized for postgraduate students of the Department of Public Health Dentistry, Institute of Dental Sciences offered a unique and enriching learning experience. A team of 2 post-graduate students including Dr. Pallavi, Dr. Gulshan along with 5 interns and 1 faculty including Dr. Chanchal Gangwar visited the plant on 4.4.25. The team left the college premises in the dental van with a driver at 10:30 am and reached the location by 10:52 am. The team returned to the college campus by 12:00 pm after completion of the visit.

This visit provided students with valuable exposure to the oral health challenges faced by incarcerated individuals, emphasizing the importance of equitable access to healthcare. During the trip, 169 prisoners underwent oral health screening, allowing students to assess a wide range of dental conditions prevalent among this underserved population. The screening helped highlight critical oral health issues that require timely intervention, such as gum disease, tooth decay, and poor oral hygiene practices. Additionally, an oral health talk was delivered to educate inmates on the significance of maintaining good oral hygiene, including proper brushing techniques, the role of a healthy diet, and the impact of oral health on overall well-being. The session empowered inmates with practical knowledge to improve their oral care routine despite the constraints of their environment. This initiative fostered a sense of social responsibility and empathy among the students, reinforcing their commitment to addressing oral health disparities.

Overall, the trip bridged academic knowledge with real-world application, offering insights into the role of public health dentistry in creating positive health outcomes in marginalized communities.

**Date-22-03-2021**

# A VISIT AT SEWAGE TREATMENT PLANT

Our main purpose for this visit was to give the practical knowledge about water treatment plant process. By this visit students can be familiar with industrial environment and get knowledge of different units of waste water treatment plant as a part of post graduate curriculum.

Post graduate students including Dr. Anushtha Kushwaha, Dr. Prasanjeet Kumar, Dr. Krishna, Dr. Arjun, Dr. Sarthak, Dr. Jyochhna Rani, Dr. Palak Gangwar and Dr. Pallavi visited a common effluent treatment plant at Prem Nagar, Bareilly on 22 March 2021. The visit started from the initial tank where the waste water of washing Ghats is collected. Mr. Singh, the in charge officer of water treatment plant guided all the students about the entire process of water treatment plant

## Screening

First unit of water treatment plant is screening, this is first step in wastewater treatment process. Screening involves the removal of large objects for example cotton buds, plastics, diapers, rags, sanitary items, face wipes, broken bottles or bottle tops that in one way or another may damage the equipment.

## Primary Treatment

This process involves the separation of macrobiotic solid matter from the wastewater. Primary treatment is done by pouring the wastewater into big tanks for the solid matter to settle at the surface of the tanks which is removed by large scrappers at the center of the cylindrical tanks. The remaining water is then pumped for secondary treatment.

## Secondary Treatment

The next step of the treatment process is secondary clarifier. The water from the primary tank is transported to the secondary clarifier for adding chemicals such as lime and alum to reduce the PH of water.

**Aeration Tank**

The settled wastewater enters aeration tanks where air is blown into the liquid to provide oxygen for mixing and to promote the growth of micro-organisms. Some of this sludge is recycled to the inlet of the aeration tank to maintain the biomass, hence the name for the process – 8 activated sludge. The remainder is pumped to anaerobic digester for further treatment.

**Disinfection unit**

The next steps for wastewater treatment plants use disinfection for treatment to reduce pathogens, which are micro-organisms which can pose a risk to human health.

**Sludge Digestion**

Now again to remove the sludge particles the water is passed through the belt filter press. The purified water is obtained by chemically treating the water coming out of the belt filter press. In which Chlorine is usually dosed into the treated wastewater stream for disinfection.

**CONCLUSION**

From this visit, we got the information and practical knowledge about the treatment of waste water and components used in treatment plant. The entire team returned to the college campus by 2pm.

**REQUEST LETTER**

Date: - 22/March/2021

**To,**
The General Manager,
Sewage Water Treatment Plant,
Bareilly, Uttar Pradesh

**Subject: Request for Permission to Visit Sewage Water Treatment Plant**

Respected Sir,

I hope this letter finds you well. I, **Dr. Sathyajith Naik N**, Principal, Institute of Dental Sciences, Bareilly, request permission for a group of postgraduate students from our college to visit Sewage Water Treatment Plant as part of our educational curriculum.

Our group comprises postgraduate students from Department of Public Health Dentistry, who are eager to gain practical knowledge and firsthand experience in Sewage Water Treatment Plant. We believe that a visit to your esteemed Plant will greatly enhance our understanding of theoretical concepts and provide invaluable insights into real-world operations.

We would appreciate it if the visit could include a tour of the facility and an opportunity to interact with your staff. Our group will be accompanied by one faculty member who will ensure that all safety and compliance protocols are strictly followed during the visit.

We kindly request your support in facilitating this educational visit, and we are more than willing to coordinate with your team to finalize the visit schedule and any other required arrangements. We look forward to your positive response and hope for an opportunity to learn from the expertise and knowledge at Sewage Water Treatment Plant.

Thank you for considering our request.

## FIELD VISIT REPORT

## LOCATION: AYURVEDIC COLLEGE

The post-graduate students of Department of Public Health Dentistry went on Field trip to Ayurvedic College on 19th December 2023. This visit was meticulously organized to provide an in-depth understanding of Ayurvedic medicine, its foundational principles, and its practical applications in modern healthcare.

Upon our arrival, we were graciously received by the college staff and introduced to Dr. Gyan Sharma, a distinguished faculty member and practitioner of Ayurvedic medicine.

He elucidated the core principles of Ayurveda, which emphasize the balance among the body, mind, and spirit, and the use of natural remedies and lifestyle practices to promote health and prevent disease.

Following the presentation, we embarked on a guided tour of the college's facilities. Our first stop was the herbal garden, which houses a diverse array of medicinal plants and herbs utilized in Ayurvedic treatments. He provided comprehensive explanations of the therapeutic properties of several key plants, such as Ashwagandha, Tulsi, and Neem. The students were deeply impressed by the extensive knowledge and the critical importance of preserving these natural resources for future generations.

Our next destination was the college's pharmacy, where we observed the intricate process of preparing various Ayurvedic medicines. The preparation of these medicines involves a meticulous combination of herbs, minerals, and other natural ingredients. The pharmacy staff demonstrated the preparation of a popular Ayurvedic formulation, Chyawanprash, known for its immune-boosting properties. The students were fascinated by the precision and care taken in the preparation of these remedies, underscoring the importance of maintaining quality and purity in Ayurvedic medicine.

The tour continued with a visit to the hospital's treatment rooms, where we witnessed several patients receiving Ayurvedic therapies. These treatments included Panchakarma, a detoxification and rejuvenation therapy, and various types of massages and oil treatments designed to balance the body's energies. The students had the opportunity to interact with the patients and

practitioners, gaining valuable insights into the practical applications of Ayurvedic principles in treating various ailments.

A significant highlight of the visit was a hands-on workshop on Ayurvedic diagnostic techniques. Dr. [Name] demonstrated the use of Nadi Pariksha (pulse diagnosis) and explained its role in determining the balance of the three doshas (Vata, Pitta, and Kapha) in the body. The students eagerly participated in the workshop, practicing the techniques under the guidance of experienced practitioners.

The field visit concluded with a Q&A session, where the students had the opportunity to pose questions and clarify their doubts. The college staff generously shared their knowledge and experiences, making the session highly interactive and informative.

Overall, the field visit to Rohilkhand Ayurvedic Medical College and Hospital was an enriching experience for the postgraduate students. It provided them with a deeper understanding of Ayurvedic medicine and its holistic approach to health and wellness. The knowledge gained during this visit will undoubtedly contribute to their academic and professional growth, inspiring them to explore and appreciate the ancient wisdom of Ayurveda in their future endeavors.

## A Report on Field Visit to

**Dairy Technology Section, Department of Livestock Products Technology,**
**Indian Veterinary Research Institute, Bareilly**

An educational field visit to Dairy Plant at In Indian Veterinary Research Institute, Bareilly was organized by the Department of Public Health Dentistry of Institute of Dental Sciences, Bareilly. A team of 8 post-graduate students including Dr. Anushtha Kushwaha, Dr. Prasanjeet, Dr. Krishna, Dr. Arjun, Dr. Sarthak Gupta, Dr. Jyochhna, Dr. Pallavi and Dr. Palak and 2 staffs including Dr. Saima Ali and Mr. CS Kandpal visited the plant on 12.10.22. The team left the college premises in the dental van with a driver at 10:30 am and reached the location by 10:45 am. The team returned to the college campus by 12:30 pm after completion of the visit.

Dr. Amar Trivedi addressed the team and informed about the automation of dairy through presentation containing many functional block diagrams and existing computerized controlled machineries. He explained that since the dairy production is not much, the milk produced in the department is not commercialized and only distributed among the faculty and staff residents of IVRI. The visit to the Dairy Plant at the Indian Veterinary Research Institute (IVRI), Bareilly, provided valuable insights into the functioning and operational processes involved in dairy plant management.

After that the students visited 2 different sections:

1) Refrigeration Unit, where student were getting a knowledge about refrigeration system.

2) Milk process unit, where the students were informed of pasteurized milk production process.

Key Steps Observed During the Visit:

1. **Milk Collection and Reception:** Raw milk is sourced from nearby dairy farms and transported in refrigerated tankers to the plant. This ensures that the milk maintains its freshness and quality throughout the journey. Upon arrival at the plant, the milk undergoes a series of quality tests to ensure it meets the required safety standards. It is weighed, and the initial testing includes checking for any signs of contamination.

**2. Clarification Process:** One of the first steps upon milk arrival is clarification, where centrifugal separation is used to remove any unwanted impurities, such as dirt, debris, and other sediment that may be present in the raw milk.

**3. Standardization of Milk:** The milk is standardized to adjust its fat content to cater to different milk products, such as whole milk, skimmed milk, or standardized milk with specific fat percentages. The students were shown the equipment used to adjust the fat content and how consistency is maintained across batches.

**4. Pasteurization:** The milk is pasteurized by heating it to a specific temperature for a set period to kill harmful bacteria without compromising the taste and nutritional content. During the visit, the students learned about the different types of pasteurization methods, including high-temperature short-time (HTST) pasteurization.

**5. Homogenization:** After pasteurization, the milk undergoes homogenization. This process breaks down the fat molecules, ensuring that the milk remains smooth, with no separation of cream. The homogenizer used in the plant was demonstrated, and the students observed how it helps create a uniform texture in the final product.

**6. Cooling and Storage:** To maintain its quality and prevent bacterial growth, the pasteurized milk is rapidly cooled and stored in large, refrigerated storage tanks. The importance of keeping the milk at the right temperature during this phase was emphasized.

**7. Packaging:** Once cooled, the milk is ready for packaging. The plant has advanced automated systems that ensure hygienic packaging into bottles, cartons, or other containers. The packaging area was meticulously clean, and students were shown how safety and sanitation are prioritized to avoid contamination.

**8. Distribution Process:** After packaging, the finished products are sent for distribution to retail outlets. The plant's logistical operations were explained, including how milk is transported to various points like supermarkets and local stores.

The visit to the IVRI Bareilly Dairy Plant provided an in-depth look into the complex processes involved in milk processing. The students gained a better understanding of the scientific and technical aspects that ensure the production of safe, high-quality dairy products. This experience will be valuable for their academic growth, especially for those specializing in food science, veterinary studies, and agricultural research. The tour was not only informative but also a

practical demonstration of the theories they had studied in the classroom. It reinforced the importance of quality control, safety, and efficiency in dairy operations.

# FIELD TRIP REPORT

## Pantnagar Jai Hanuman Tarai Seeds

On 17 Jan 2020, a group of postgraduate students from the Department of Public Health Dentistry, Institute of Dental Sciences, Bareilly, undertook a field trip to the Jai Hanuman Tarai Seeds at Pantnagar, Milak, Uttar Pradesh. The purpose of the trip was to explore the agricultural practices and community health implications related to the production of Tarai seeds and its impact on rural health and lifestyle.

The visit to the Jai Hanuman Tarai Seeds farm was organized into several key segments, allowing students to interact with the farming practices and gain a comprehensive understanding of the processes.

1. **Tour of the Agricultural Fields:** The students were shown around the fields where various crops are cultivated, including the tarai seeds. The farming methods used in the cultivation of these seeds were explained in detail. The importance of soil health, water management, and pest control techniques were discussed by the farm managers.

2. **Interaction with Local Farmers:** A key highlight of the trip was meeting local farmers who explained the traditional farming methods, challenges faced in farming, and how agricultural practices have evolved over time. The farmers also shared their experiences regarding the use of organic farming techniques and its benefits.

3. **Educational Session on Public Health:** An expert in rural public health delivered a session on the importance of sustainable farming practices for improving public health outcomes in rural areas. The session focused on the correlation between food security, nutritional health, and preventive healthcare in agricultural communities.

4. **Discussion on Health Impacts of Agricultural Practices:** The students had an interactive discussion on the health impacts of modern agricultural techniques, including the use of pesticides, chemical fertilizers, and their potential consequences on human health. The importance of organic and eco-friendly farming was highlighted as a potential solution for minimizing negative health impacts.

5. **Community Health Awareness:** The trip also focused on understanding the broader health issues in rural areas. Students discussed how local crops like tarai seeds contribute to the nutritional security of the population, and how improving awareness and access to better farming practices can enhance community health.

The field trip to Pantnagar's Jai Hanuman Tarai Seeds was an enriching and informative experience for the postgraduate students of Public Health Dentistry. It provided valuable insights into the relationship between agriculture and public health. The students were able to see firsthand how sustainable farming practices can contribute to the nutritional security of rural populations and how effective collaboration between farmers, public health experts, and the community can improve overall health outcomes.

## FIELD TRIP REPORT

### Shanti Mohan Rice Mill

The postgraduate students of the Department of Public Health Dentistry, Institute of Dental Sciences, Bareilly, visited the Shanti Mohan Rice Mill as part of their academic field trip on 18 Nov 2024. The aim was to observe the rice milling process, understand its health implications on workers, and explore how food production and public health intersect.

The Objectives were to understand the rice milling process, to observe the working conditions in the mill and their health impacts, to examine the public health aspects of food processing and its relation to oral and general health and to engage in a discussion about sustainable and safe practices in food production.

The field trip began with a tour of the rice milling facility, where students were introduced to the stages of rice processing, from cleaning and de-hulling to milling and packaging. The process involved several steps, including the use of machines to remove husks, polish the rice, and separate broken grains.

1. **Milling Process Overview:** The students observed the rice mill machinery in operation, including the cleaning machines, hullers, and polishers. The mill workers explained each stage of rice processing, emphasizing the importance of quality control to ensure that the rice is free from contaminants.

2. **Health and Safety Measures:** During the visit, the students noted the presence of dust and noise in the mill. While safety equipment such as masks and earplugs were used by the workers, it was clear that there is a need for better ventilation and more stringent health and safety protocols to minimize respiratory and hearing issues among workers.

3. **Public Health Perspective:** A discussion followed on the potential health risks associated with food processing, especially in areas like rice mills where prolonged exposure to dust and machinery can lead to respiratory and musculoskeletal problems. The importance of good hygiene practices in food processing was also highlighted to prevent contamination.

4. **Nutritional Impact:** The students learned about the nutritional implications of rice milling, particularly how excessive milling can reduce the nutrient content of rice, such as fiber and vitamins. They also discussed the potential role of rice in public health nutrition and its importance in diets, especially in rural areas.

The visit to Shanti Mohan Rice Mill provided valuable insights into the rice production process and its relevance to public health. The students learned about the health risks faced by mill workers and the importance of implementing safety measures to protect their well-being. Additionally, they gained an understanding of how food processing impacts the nutritional quality of rice and its role in community health.

**Report of Visit to Sugar Mill, Pilibhit**

Department of Public Health Dentistry, Institute of Dental Sciences, Bareilly organized a field visit to LH Sugar Mill, Pilibhit as a part of the MDS curriculum. Four postgraduate students (Dr. Palak Gangwar, Dr. Pallavi Patel, Dr. Akanksha Varshney, Dr. Shambhavi Shrivastav) joined the visit. A demonstration about the plant was arranged by the authority in which structure and working of the sugar mill was explained. The four post- graduate students left the college premises along with a driver at 9:00 am and returned by 5:00 pm.

**OBJECTIVES:** The objectives of visiting the water treatment plant were:

- To understand the process how sugar cane is processed to produce raw or white sugar.
- To learn about the equipment.
- To learn about the working environment.

**STEPS IN SUGAR MILL PROCESS:**

- CLEANING: The cane is washed and shredded.
- MILLING: The cane is crushed in mills to extract the juice.
- CLARIFICATION: Impurities are removed from the juice.
- EVAPORATION: The juice is boiled to concentrate it into a syrup.
- CRYSTALLIZATION: The syrup is seeded with sugar crystals and boiled in a vacuum pan to grow the crystals.
- SEPARATION: The crystals are separated from the syrup in a centrifuge.
- DRYING: The raw sugar is dried and stored in bulk sugar bins.
- REFINING: The raw sugar is further processed to remove the impurities and meet food safety requirements.

**********

Sugar mills are important because they produce sugar, a food staple, and byproducts that contribute to the economy. They also provide employment to millions of people, including farmers and workers in the mills. Sugar factories contribute to the healthcare industry by producing by-products that are used in medicines, energy generation, and chemical products. This field visit gave us the knowledge about sugar mill process which involves extracting juice from sugarcane, removing impurities, and crystallizing the juice into raw sugar.

# FIELD TRIP REPORT

## Dwarikesh Sugar Mill, Faridpur, Bareilly

On 25 November 2019, a group of postgraduate students from the Department of Public Health Dentistry, Institute of Dental Sciences, Bareilly, visited the Dwarikesh Sugar Mill located in Faridpur, Bareilly. The objective of this field trip was to understand the sugar production process, observe the working conditions of mill employees, and discuss the potential public health implications related to sugar consumption and the mill environment.

The field trip began with a guided tour of the sugar mill, where students were shown the various stages of sugar production.

1. **Sugar Production Process:** Students observed the process starting from the crushing of sugarcane, extraction of juice, and the refining process. The juice is then boiled to form thick syrup, which is further processed and crystallized into raw sugar. Finally, the raw sugar is purified and packed for distribution.

2. **Health and Safety Measures:** The mill operates heavy machinery and high-temperature systems, creating an environment with potential safety risks, including machinery accidents and exposure to heat. The workers demonstrated the use of basic safety equipment such as gloves and goggles, but the need for enhanced protective measures, especially for respiratory and skin protection, was noted. The importance of proper safety protocols to prevent accidents and injuries was discussed.

3. **Public Health Concerns:** The students engaged in a discussion regarding the public health implications of excessive sugar consumption. Given the rising prevalence of dental caries, obesity, and other non-communicable diseases linked to sugar intake, the students acknowledged the role of both direct and indirect sugar consumption. They explored how sugar mills contribute to the production of refined sugar, which is a major ingredient in many processed foods.

4. **Environmental Impact:** The trip also provided an opportunity to discuss the environmental impact of sugar production, including the disposal of by-products like bagasse and molasses. The mill's efforts to utilize bagasse as a biofuel for energy generation and its attempts at managing waste effectively were also highlighted.

The visit to Dwarikesh Sugar Mill provided the students with practical knowledge about sugar production and its connection to public health concerns. The mill's operation, while crucial for local and national economies, also posed significant challenges in terms of worker safety, public health risks from sugar consumption, and environmental sustainability.

## REQUEST LETTER

**To,**
The Manager
Dwarikesh Sugar Mill
Faridpur, Bareilly, Uttar Pradesh

**Date:** 25.11.2019

**Subject:** Request for Permission to Visit Sugar Mill

Respected Sir,

I hope this letter finds you well. I, **Dr. Shivlingesh K.K.**, Professor & Head, Department of Public Health Dentistry, Institute of Dental Sciences, Bareilly, request permission for a group of postgraduate students from our college to visit Dwarikesh Sugar Mill as part of our educational curriculum.

Our group comprises postgraduate students from Department of Public Health Dentistry, who are eager to gain practical knowledge and firsthand experience in sugar production and processing. We believe that a visit to your esteemed sugar mill will greatly enhance our understanding of theoretical concepts and provide invaluable insights into real-world operations.

We would appreciate it if the visit could include a tour of the facility, an overview of the sugar production process, and an opportunity to interact with your staff to discuss various aspects of sugar manufacturing. Our group will be accompanied by one faculty member who will ensure that all safety and compliance protocols are strictly followed during the visit.

We kindly request your support in facilitating this educational visit, and we are more than willing to coordinate with your team to finalize the visit schedule and any other required arrangements. We look forward to your positive response and hope for an opportunity to learn from the expertise and knowledge at Dwarikesh Sugar Mill.

Thank you for considering our request.

Dr. Shivlingesh K.K,
Professor & Head,
Department of Public Health Dentistry,
Institute of Dental Sciences,
Bareilly

## RESEARCH PROPOSAL/SYNOPSIS DETAILS OF POSTGRADUATE STUDENTS (Batch 2024-2027)

| Sl. No. | Name of Student | Speciality | Topic | Name of Supervisor | Name of Co-Supervisors |
|---|---|---|---|---|---|
| 1 | Dr. Bhavya Agarwal | Periodontology and Implantology | ASSESSING OSTEOGENIC ACTIVITY IN INJECTABLE PLATELET RICH FIBRIN COATED IMPLANTS USING BONE-SPECIFIC ALKALINE PHOSPHATASE BIOMARKER: AN OBSERVATIONAL STUDY | Dr. Rika Singh | Dr. Akanksha Singh |
| 2 | Dr. Gurleen Kaur Saluja | Periodontology and Implantology | EVALUATING THE IMPACT OF ADVANCED PLATELET RICH FIBRIN BLOCK AND NANOHYDROXYAPATITE GRAFT IN TISSUE REGENERATION OF PERIODONTAL INTRA-BONY DEFECTS : A CLINICO-RADIOGRAPHIC STUDY | Dr. Manvi Chandra Agarwal | Dr.Geetika Kumar |
| 3 | Dr. Iram Khan | Periodontology and Implantology | EVALUATION OF TITANIUM PLATELET RICH FIBRIN AND ADVANCED PLATELET RICH FIBRIN IN TREATMENT OF PERIODONTAL INTRABONY DEFECTS: A CONE BEAM COMPUTED TOMOGRAPHY ANALYSIS | Dr. Prerna Agarwal | Dr. Ashutosh Agarwal |
| 4 | Dr. Mansi Varshney | Periodontology and Implantology | EVALUATION OF TUNNELING TECHNIQUE WITH AMNIOTIC MEMBRANE & TITANIUM-PLATLET RICH FIBRIN FOR RECESSION COVERAGE: A SOFT TISSUE CONE BEAM COMPUTED TOMOGRAPHY ANALYSIS | Dr. Rika Singh | Dr. Ashish Aggarwal |
| 5 | Dr. Mrinal Pandey | Periodontology and Implantology | CORRELATION OF SERUM VITAMIN D LEVELS AND RED BLOOD CELL INDICES IN PERIODONTITIS AND HEALTHY INDIVIDUALS: A COMPARATIVE STUDY | Dr. Jaishree Garg | Dr.Geetika Kumar |
| 6 | Dr. Purbabha Mondal | Periodontology and Implantology | EVALUATION OF HARD TISSUE OUTCOMES AROUND BISPHOSPHONATE - COATED AND INJECTABLE-PLATELET RICH FIBRIN - COATED DENTAL IMPLANTS: A RANDOMIZED CLINICAL TRIAL | Dr. Akanksha Singh | Dr. Rika Singh |
| 7 | Dr. Juhi Srivastava | Oral Medicine and Radiology | CONE BEAM COMPUTED TOMOGRAPHIC EVALUATION OF ALVEOLAR BONE THICKNESS / HEIGHT AND ROOT ANGULATION IN ANTERIOR MAXILLA: A MORPHOMETRIC OBSERVATIONAL STUDY | Dr. Nitin Upadhyay | Dr. Nupur Agarwa |

**RESEARCH PROPOSAL/SYNOPSIS DETAILS OF POSTGRADUATE STUDENTS (Batch 2024-2027)**

| Sl. No. | Name of Student | Speciality | Topic | Name of Supervisor | Name of Co-Supervisors |
|---|---|---|---|---|---|
| 8 | Dr. Ravi Kumar | Oral Medicine and Radiology | ANALYSIS OF INTERRADICULAR SEPTUM CHARECTERISTICS IN MAXILLARY MOLARS-A CONE BEAM COMPUTED TOMOGRAPHIC STUDY | Dr. Ashish Aggarwal | Dr. Nupur Agarwa |
| 9 | Dr. Riya Nayal | Oral Medicine and Radiology | MORPHOMETRIC EVALUATION OF PTERYGOMAXILLARY SUTURE USING CONE BEAM COMPUTED TOMOGRAPHY: AN OBSERVATIONAL STUDY | Dr. Sowmya GV | Dr. Ashish Aggarwal |
| 10 | Dr. Anvesha Priya | Oral and Maxillofacial Surgery | EVALUATING EFFICACY OF PLATELET RICH PLASMA, INJECTABLE PLATELET RICH FIBRIN AND GROWTH FACTOR CONCENTRATE ON PROMOTING HAIR REGROWTH: A CLINICAL TRIAL | Dr. S. Gokkulakrishnan | Dr. Jitendra Kumar Diwakar |
| 11 | Dr. Ashish Kumar | Oral and Maxillofacial Surgery | VARIOUS PATTERNS OF TERMINAL BRANCHS OF FACIAL NERVE ON FACE: A CADAVERIC STUDY | Dr. S. Gokkulakrishnan | Dr. Suresh Babu Kottapalli<br>Dr. Jitendra Kumar Diwakar |
| 12 | Dr. Holambe Dipali Kalidas | Oral and Maxillofacial Surgery | CLINICAL AND RADIOGRAPHIC ASSESSMENT OF FLAP AND FLAPLESS IMPLANT SURGICAL APPROACHES IN MANDIBULAR ARCH: AN EXPERIMENTAL STUDY | Dr. Niranjanaprasad Indra B | Dr. Bhart Vashishat |
| 13 | Dr. Maanketu | Oral and Maxillofacial Surgery | RADIAL FOREARM FREE FLAP VERSUS DISTANT MODIFIED MELOLABIAL ISLAND FLAP IN TONGUE RECONSTRUCTION: AN ANALYTICAL COMPARATIVE STUDY | Dr. Anurag Yadav | Dr. Arjun Agarwal<br>Dr. Himanshu Pratap Singh<br>Dr. Aamir Malick Saifi |
| 14 | Dr. Priyankur Omer | Oral and Maxillofacial Surgery | ALVEOLAR SOCKET PRESERVATION FOLLOWING AUTOGENOUS BONE GRAFTING USING AUTO-CHIP MAKER IN 3RD MOLAR EXTRACTION SITE: AN EXPERIMENTAL STUDY | Dr. Niranjanaprasad Indra B | Dr. Bhart Vashishat |

**RESEARCH PROPOSAL/SYNOPSIS DETAILS OF POSTGRADUATE STUDENTS (Batch 2024-2027)**

| Sl. No. | Name of Student | Speciality | Topic | Name of Supervisor | Name of Co-Supervisors |
|---|---|---|---|---|---|
| 15 | Dr. Shadab Salam | Oral and Maxillofacial Surgery | EVALUATE THE EFFECTIVENESS OF LATERAL ARTHROPLASTY IN SURGICAL MANAGEMENT OF TEMPOROMANDIBULAR JOINT ANKYLOSIS: AN EXPERIMENTAL STUDY | Dr. Himanshu Pratap Singh | Dr. N Sriram Choudary |
| 16 | Dr. Apoorva Sharma | Orthodontics and Dentofacial Orthopedics | EVALUATION OF COLOR STABILITY IN EPOXY AND TEFLON COATED ARCHWIRES AT DIFFERENT TIME INTERVALS: AN IN VITRO STUDY | Dr. Ravi Bhandari | Dr. Resham Irshad |
| 17 | Dr. Keisham Anupama Devi | Orthodontics and Dentofacial Orthopedics | ASSOCIATION OF CRANIOFACIAL MORPHOLOGY AND ETHNICITY WITH PAEDIATRIC SLEEP RELATED BREATHING DISORDER: A MULTICENTRE CROSS-SECTIONAL STUDY | Dr. Ankur Gupta | |
| 18 | Dr. Parul Kumari | Orthodontics and Dentofacial Orthopedics | EVALUATION OF MICROLEAKAGE UNDER ORTHODONTIC METAL BRACKETS BONDED WITH DIFFERENT ADHESIVE SYSTEMS: AN EX VIVO STUDY | Dr. Preeti Bhattacharya | Dr. Madhusudan Astekar<br>Dr. Resham Irshad |
| 19 | Dr. Arzoo Arya | Prosthodontics and Crown & Bridge | FRACTURE STRENGTH OF THREE UNIT FIXED PARTIAL DENTURES FABRICATED WITH VARIOUS PROVISIONAL MATERIALS BEFORE AND AFTER AGEING: AN IN-VITRO STUDY | Dr. Alok Kumar | Dr. Nivedita Dixit |
| 20 | Dr. Biradar Mahesh Sudarshan | Prosthodontics and Crown & Bridge | EFFECT OF DIFFERENT DENTURE CLEANSERS ON SURFACE ROUGHNESS AND FLEXURAL STRENGTH OF HEAT CURE DENTURE BASE RESIN: AN IN-VITRO OBSERVATIONAL STUDY | Dr. Nivedita Dixit | Dr. Chetan Luniyal |
| 21 | Dr. Mayank Kumar | Prosthodontics and Crown & Bridge | EFFECT OF FIBRE REINFORCEMENT ON FLEXURAL STRENGTH IN HEAT POLYMERIZED POLYMETHYL METHACRYLATE DENTURE BASE RESIN: AN IN-VITRO STUDY | Dr. Chandana Nair | Dr. Chetan Luniyal |
| 22 | Dr. Shreya Gupta | Prosthodontics and Crown & Bridge | EFFECT ON STRESS DISTRIBUTION IN THE CONDYLAR AND PERIRADICULAR AREA OF TEETH SUPPORTING OCCLUSAL DEVICES FABRICATED BY VARIOUS METHODS: AN OBSERVATIONAL STUDY | Dr. Alok Kumar | Dr. Shikha Luniyal |

**RESEARCH PROPOSAL/SYNOPSIS DETAILS OF POSTGRADUATE STUDENTS (Batch 2024-2027)**

| Sl. No. | Name of Student | Speciality | Topic | Name of Supervisor | Name of Co-Supervisors |
|---|---|---|---|---|---|
| 23 | Dr. Shyamli | Prosthodontics and Crown & Bridge | EFFICACY OF MECHANICAL AND CHEMICO-MECHANICAL GINGIVAL RETRACTION SYSTEMS: AN IN-VIVO EXPERIMENTAL STUDY | Dr. Chandana Nair | Dr. Madhusudan Astekar<br>Dr. Shikha Luniyal |
| 24 | Dr. Singh Gaurav Indrasen | Prosthodontics and Crown & Bridge | EVALUATION OF FRACTURE RESISTANCE IN INTERIM FIXED PARTIAL DENTURE FABRICATED USING POLYMETHYLMETHACRYLATE AND REINFORCED WITH DIFFERENT MATERIALS: AN IN-VITRO STUDY | Dr. Chetan Luniyal | Dr. Nivedita Dixit |
| 25 | Dr. Gulshan Gahalot | Public Health Dentistry | EVALUATING FIVE DIFFERENT METHODS OF WORKING LENGTH DETERMINATION IN PERMANENT TEETH: A MULTIMODAL ANALYSIS | Dr. Chanchal Gangwar | Dr. Shivlingesh K.K |
| 26 | Dr. Kriti Rastogi | Public Health Dentistry | EFFICACY OF ALOE VERA-BROMELAIN AND HYALURONIC ACID IN THE MANAGEMENT OF POST EXTRACTION SOCKET: A RANDOMIZED CONTROLLED TRIAL | Dr. Shivlingesh K.K | Dr. Chanchal Gangwar |
| 27 | Dr. Pawan Lohani | Public Health Dentistry | COMPARATIVE EVALUATION OF PAIN & SENSITIVITY AMONG VARIOUS PULP CAPPING AGENTS IN PERMANENT MOLARS: A RANDOMISED CONTROLLED TRIAL | Dr. Shivlingesh K.K | Dr. Chanchal Gangwar |
| 28 | Dr. Archita Goel | Conservative Dentistry and Endodontics | EVALUATION OF APICAL MICROLEAKAGE OF HYDROPHILIC AND HYDROPHOBHIC ROOT CANAL SEALERS: AN IN VITRO OBSERVATIONAL STUDY | Dr. Lalit Kumar Agarwal | Dr. Madhusudan Astekar<br>Dr. Chandra Vijay Singh |
| 29 | Dr. Gangthade Prasad Ramesh | Conservative Dentistry and Endodontics | EVALUATION OF CYCLIC FATIGUE RESISTANCE OF VARIABLE AND CONSTANT TAPER ROTARY FILES AT DIFFERENT ANGLE OF CURVATURE: AN IN-VITRO OBSERVATIONAL STUDY | Dr. Manoj Kumar Hans | Dr. Rahul Pandey |
| 30 | Palak Jain | Conservative Dentistry and Endodontics | EFFECT OF VARIOUS COMBINATION OF BIOMATERIALS ON OXYGEN RELEASE AND pH LEVELS IN SIMULATED ROOT RESORPTION CAVITIES: AN IN-VITRO OBSERVATIONAL STUDY | Dr. Manoj Kumar Hans | Dr. Rahul Pandey |

## RESEARCH PROPOSAL/SYNOPSIS DETAILS OF POSTGRADUATE STUDENTS (Batch 2023-2026)

| Sl. No. | Name of Student | Speciality | Topic | Name of Supervisor | Name of Co-Supervisors |
|---|---|---|---|---|---|
| 1 | Dr. Alok Chauhan | Periodontology and Implantology | Comparative Evaluation of Various Analgesics in Post Operative Pain Management after Implant Placement: A Randomized Clinical Trial | Dr. Manvi Chandra Agarwal | Dr. Ashutosh Agarwal |
| 2 | Dr. Arya Mishra | Periodontology and Implantology | Assessing Interleukin-1β levels in psoriasis patients with and without chronic periodontitis: A cross sectional study | Dr. Rika Singh | |
| 3 | Dr. Mayank Awasthi | Periodontology and Implantology | Evaluating Interleukin-21 Levels in Chronic Periodontitis Patients Before & After Periodontal Therapy: A Clinical Study | Dr. Rika Singh | |
| 4 | Dr. Radhika Singh | Periodontology and Implantology | Association of Interleukin-35 Levels in Gingival Crevicular Fluid in Periodontal Health and Disease: A Comparative Study | Dr. Akanksha Singh | Dr. Rika Singh |
| 5 | Dr. Shivani Gupta | Periodontology and Implantology | Evaluation of Human Ghrelin Levels in Patients with Chronic Periodontitis Before and After Non Surgical Periodontal Therapy: An Experimental Trial | Dr. Prerna Agarwal | Dr.Geetika Kumar |
| 6 | Dr. Tamim Ahmad | Periodontology and Implantology | Comparative Evalution of Alveolar Crest Changes Around Immediate Dental Implant with Platelet Rich Fibrin Versus Demineralized Freeze Dried Bone Allograft: A Radiographic Study | Dr. Jaishree Garg | Dr. Ashish Aggarwal<br>Dr.Geetika Kumar |
| 7 | Dr. Banshika | Oral Pathology & Microbiology | Chloride Intracellular Channel 4 Expression in Potentially Malignant Disorders, Verrucous Carcinoma and Squamous Cell Carcinoma of Oral Cavity: An Observational Study | Dr. Madhusudan Astekar | Dr. Ashutosh Agarwal<br>Dr. Aditi Murari |
| 8 | Dr. Disha Naresh | Oral Pathology & Microbiology | Immunohistochemical Expression of Polyoma Enhancer Activator 3 in Odontogenic Cysts and Tumors: An Observational Study | Dr. Madhusudan Astekar | Dr. Gaurav Sapra |
| 9 | Dr. Arifa Naaz | Oral Medicine and Radiology | Assessment of Inferior Alveolar Nerve Canal Orientation in Mandibular Posterior Region using Cone Beam Computed Tomography: An Analytical Study | Dr. Nitin Upadhyay | |
| 10 | Dr. K. B. A. Kader | Oral Medicine and Radiology | Cone Beam Computed Tomographic Evaluation of Submandibular Gland Fossa Depth and its Relation to Inferior Alveolar Nerve Canal: An Analytical Study | Dr. Ashish Aggarwal | |
| 11 | Dr. Shreya Verma | Oral Medicine and Radiology | A Cone Beam Computed Tomographic Assessment of Mandibular Osteoporotic Alterations in Females Using Radiographic Indices: An Observational Study | Dr. Sowmya GV | |
| 12 | Dr. Jiyanshu Raj | Oral and Maxillofacial Surgery | Role of Dynamic Compression Plating Principle in Miniplate Osteosynthesis for Treatment of Mandibular Anterior Fractures: An Interventional Study | Dr. Niranjanaprasad Indra B | |

## RESEARCH PROPOSAL/SYNOPSIS DETAILS OF POSTGRADUATE STUDENTS (Batch 2023-2026)

| Sl. No. | Name of Student | Speciality | Topic | Name of Supervisor | Name of Co-Supervisors |
|---|---|---|---|---|---|
| 13 | Dr. Kamil Khan | Oral and Maxillofacial Surgery | Radial Free Forearm Flap Versus Anterolateral Thigh Flap in Head & Neck Reconstruction: A Comparative Study | Dr. Anurag Yadav | Dr. Arjun Agarwal<br>Dr. Himanshu Pratap Singh<br>Dr. Aamir Malick Saifi |
| 14 | Dr. Khushnud Alam | Oral and Maxillofacial Surgery | Assessment of Facial Nerve Injury in Maxillofacial Region Following Extraoral Surgical Approaches : An Observational Study | Dr. Himanshu Pratap Singh | |
| 15 | Dr. Namrata Singh | Oral and Maxillofacial Surgery | Role of Platelet Rich Fibrin and Plasma in Assessing the Postoperative Complications and Healing after Surgical Extraction: A Randomized Controlled Study | Dr. S. Gokkulakrishnan | |
| 16 | Dr. Sanyam Jain | Oral and Maxillofacial Surgery | Platelet Rich Plasma Versus Injectible Platelet Rich Fibrin on Promoting Hair Regrowth in Individuals with Androgenic Alopecia: A Randomized Controlled Study | Dr. S. Gokkulakrishnan | |
| 17 | Dr. Suman Lata | Oral and Maxillofacial Surgery | Assessment of Stability and Post-Operative Morbidity Between 2 Point and 3 Point Fixation in Zygomaticomaxillary Complex Fracture: An Interventional Study | Dr. Niranjanaprasad Indra B | Dr. Jitendra Kumar Diwakar |
| 18 | Dr. Oza Anil Anup | Orthodontics and Dentofacial Orthopedics | Assessment of Cytotoxicity Among Thermoplastic and Acrylic Materials Used in Fixed Orthodontic Treatment: An Observational Study | Dr. Ankur Gupta | Dr. Madhusudan Astekar |
| 19 | Dr. Deepika Yadav | Orthodontics and Dentofacial Orthopedics | Comparative Analysis of Bracket Transfer Accuracy with Various Indirect Bonding Techniques: An Observational Study | Dr. Anil Kumar Chandna | Dr. Ravi Bhandari |
| 20 | Dr. Upasana Devi | Orthodontics and Dentofacial Orthopedics | Characteristics and Dynamics of Smile in Patients with Bimaxillary Dentoalveolar Protrusion Pre and Post Orthodontic Treatment: An Observational Study | Dr. Preeti Bhattacharya | Dr. Shivani Singh |
| 21 | Dr. Devanshi Palariya | Prosthodontics and Crown & Bridge | Analysis of Fracture Resistance Among Three Resin Composite Core Buildup Materials: An In-Vitro Observational Study | Dr. Alok Kumar | Dr. Chetan Luniyal |
| 22 | Dr. Harpreet Kaur | Prosthodontics and Crown & Bridge | Colour Stability of Resin Based Temporary Restorative Materials when Immersed in Natural and Artificially Prepared Solutions: An In-Vitro Observational Study | Dr. M K Singhal | Dr. Alok Kumar |
| 23 | Dr. Monika | Prosthodontics and Crown & Bridge | Effect of Dentin Sealing Procedures on the Shear Bond Strength of Laminate Veneers with Different Surface Treatments: An In Vitro Study | Dr. Chandana Nair | Dr. Madhusudan Astekar<br>Dr. Chetan Luniyal |

| Sl. No. | Name of Student | Speciality | Topic | Name of Supervisor | Name of Co-Supervisors |
|---|---|---|---|---|---|
| 24 | Dr. Ritwik Singh | Prosthodontics and Crown & Bridge | Comparative Evaluation of Marginal Accuracy of Zirconia Crown Fabricated by Using Conventional Impression and Intra Oral Digital Impression Technique: An Observational Study | Dr. M K Singhal | Dr. Madhusudan Astekar<br>Dr. Chetan Luniyal |
| 25 | Dr. Shaz Imam | Prosthodontics and Crown & Bridge | Evaluation of Compressive Strength and Antibacterial Property in Type 1 Glass Ionomer Cement after Addition with Graphene Nanoparticles: An In-Vitro Study | Dr. Chandana Nair | Dr. Shikha Luniyal |
| 26 | Dr. Srashti Singh | Prosthodontics and Crown & Bridge | Marginal Fit and Microleakage in Direct Metal Laser Sintering Versus Computer Aided Design-Computer Aided Manufacturing Crown with Different Luting Cements: An In-Vitro Study | Dr. Nivedita Dixit | Dr. Madhusudan Astekar<br>Dr. Shikha Luniyal |
| 27 | Dr. Akanksha Varshney | Public Health Dentistry | Assessment of Compressive Strength and Diametral Tensile Strength of Four Different Restorative Materials: An In Vitro Study | Dr. Chanchal Gangwar | Dr. Shivlingesh K.K |
| 28 | Dr. Anjali Gupta | Public Health Dentistry | Effect of Plantago Major, Curcuma Longa and Chlorhexidine Mouthwash on Gingivitis and Dental Plaque in Adults of Bareilly: A Randomized Cross-Over Clinical Trial | Dr. Shivlingesh K.K | Dr. Jyotsana Singh |
| 29 | Dr. Shambhavi Shrivastav | Public Health Dentistry | Effect of Oil Pulling With Various Oils in the Management of Oral Sub Mucous Fibrosis Patients in Bareilly: A Randomized Controlled Study | Dr. Shivlingesh K.K | Dr. Chanchal Gangwar |
| 30 | Dr. Debipriya Ghosh | Conservative Dentistry and Endodontics | The Effect of Different Flowable Materials on Microleakage at Gingival seat of Class II Composite Resin Restoration: An In-Vitro Observational Study | Dr. Chandra Vijay Singh | Dr. Madhusudan Astekar<br>Dr. Lalit Kumar Agarwal |
| 31 | Dr. Harish Harlalka | Conservative Dentistry and Endodontics | Evaluation of Shear Bond Strength and Mode of Fracture Between Biodentine to Composite Resin using Various Bonding Agents: An Observational Study | Dr. Chandra Vijay Singh | Dr. Madhusudan Astekar<br>Dr. Lalit Kumar Agarwal |
| 32 | Dr. Ipsita Mangla | Conservative Dentistry and Endodontics | Effect of Rotary and Reciprocating Motion on the Dentin Thickness at the Danger Zone of Mandibular Molars Using Cone Beam Computed Tomography: An Observational Study | Dr. Manoj Kumar Hans | Dr. Ashish Aggarwal<br>Dr. Rahul Pandey |
| 33 | Dr. Jyoti Singh | Conservative Dentistry and Endodontics | Rotary and Reciprocating Instruments with Different Taper in the Development of Microcracks During Root Canal Preparation: An In-Vitro Observational Study | Dr. Rahul Pandey | Dr. Manoj Kumar Hans<br>Dr. Madhusudan Astekar |
| 34 | Dr. Mainak Datta | Conservative Dentistry and Endodontics | Effectiveness of Various Retreatment File System for Removing Gutta Percha During Retreatment using Cone Beam Computed Tomography: An In Vitro Study | Dr. Lalit Kumar Agarwal | Dr. Ashish Aggarwal<br>Dr. Chandra Vijay Singh |

## RESEARCH PROPOSAL/SYNOPSIS DETAILS OF POSTGRADUATE STUDENTS (Batch 2022-2025)

| Sl. No. | Name of Student | Speciality | Topic | Name of Supervisor | Name of Co-Supervisors |
|---|---|---|---|---|---|
| 1 | Dr. Aishwarya kumar | Periodontology and Implantology | Assessing the Effectiveness of Tetracycline Fibers and Acmella Oleraceae Gel Locally in Chronic Generalized Periodontitis Patients as an Adjunct to Scaling and Root Planing: A Clinical Trial | Dr. Jaishree Garg | Dr. Akanksha Singh |
| 2 | Dr. Indrani Bharadwaj | Periodontology and Implantology | Oral Health Related Quality of Life in Different Stages of Periodontitis Patients: An Observational Study | Dr. Manvi Chandra Agarwal | Dr. Prerna Agarwal |
| 3 | Dr. Pragati Rathore | Periodontology and Implantology | Measurement of Bite Force and Its Correlation with Clinical Parameters in Patients at Different Stages of Periodontitis: An Observational Study | Dr. Manvi Chandra Agarwal | Dr. Ashutosh Agarwal |
| 4 | Dr. Sharmistha Majumder | Periodontology and Implantology | Assessing the effectiveness of Phase-I Therapy on Interleukin-17 Levels in Smokers and Non-Smokers with Chronic Periodontitis: A Clinical Trail | Dr. Rika Singh | Dr. Akanksha Singh |
| 5 | Dr. Sohini Dingal | Periodontology and Implantology | Hyaluronic Acid with Amniotic Membrane in Treatment of Gingival Recession Defects : A Clinical Trial | Dr. Rika Singh | Dr.Geetika Kumar |
| 6 | Dr. Somya Tiwari | Periodontology and Implantology | Assessment of Periodontal Status and Psychological Parameters in Pre and Post Menopausal Women – An Observational Study | Dr. Jaishree Garg | Dr.Geetika Kumar |
| 7 | Dr. Aakansha Anthwal | Orthodontics and Dentofacial Orthopedics | Assessment of Different Factors Associated with Pathologic Tooth Migration and the Need for Orthodontic Treatment in Subjects with Various Stages of Periodontitis – An Observational Study | Dr. Ankur Gupta | Dr. Dhruv Tiwari |
| 8 | Dr. Abhishek Singh | Orthodontics and Dentofacial Orthopedics | Comparative Assessment of Clinical Effectiveness and Patient Acceptability of Hawley and Vacuum-Formed Retainers - An Analytical Study | Dr. Preeti Bhattacharya | Dr. Shivani Singh |
| 9 | Dr. Umi Mittal | Orthodontics and Dentofacial Orthopedics | Assessment of Orthodontic Treatment Need and Oral Health Related Quality of Life of 11-14 year Children in Bareilly Region: An Observational Study | Dr. Anil Kumar Chandna | Dr. Ravi Bhandari |
| 10 | Dr. Fatima Injela Khan | Oral Medicine and Radiology | Radiographic Evaluation of Anterior Loop in Inferior Alveolar Nerve using Cone Beam Computed Tomography: An Observational Study | Dr. Ashish Aggarwal | Dr. Sowmya GV |
| 11 | Dr. Deeksha Sharma | Oral and Maxillofacial Surgery | Comparative Evaluation of Simple Interrupted Suture with and without Platelet Rich Fibrin Matrix: A Clinical Trial | Dr. Niranjanaprasad Indra B | Dr. Archana Chaurasia |
| 12 | Dr. Deep Chakrabotty | Oral and Maxillofacial Surgery | A Clinical Trial Evaluating the Efficacy of Bone Graft with or without Platelet Rich Fibrin in Implant Patients | Dr. Himanshu Pratap Singh | Dr. Bhart Vashishat |

| | | | | | |
|---|---|---|---|---|---|
| 13 | Dr. Jayant Verma | Oral and Maxillofacial Surgery | A Clinical Trial on Arthrocentesis with Injectable Platelet Rich Fibrin vs Arthrocentesis Alone in Treatment of Internal Derangement | Dr. S. Gokkulakrishnan | Dr. Archana Chaurasia |
| 14 | Dr. Sabnam Ahmed | Oral and Maxillofacial Surgery | A Clinical Trial Comparing the Efficacy of Microneedling with and without Injectable Platelet Rich Fibrin in the Treatment of Hypertrophic and Atrophic Scars | Dr. S. Gokkulakrishnan | Dr. Jitendra Kumar Diwakar |
| 15 | Dr. Shruti Tyagi | Oral and Maxillofacial Surgery | Treating Oral Mucosal Lesion Using Collagen Matrix with or without the use of Platelet Rich Fibrin: A Randomized Control Trial | Dr. Niranjanaprasad Indra B | Dr. Bhart Vashishat |
| 16 | Dr. Shyam Sundrani | Oral and Maxillofacial Surgery | Clinical Outcomes of Compartmental Resection of Infratemporal Fossa for cT4b Carcinoma in Oral Cancer Cases: An Analytical Study | Dr. Anurag Yadav | Dr. Arjun Agarwal<br>Dr. Himanshu Pratap Singh<br>Dr. Aamir Malick Saifi<br>Dr. Jitendra Kumar Diwakar |
| 17 | Dr. Sonal Upadhyay | Oral Pathology & Microbiology | Immunohistochemical Expression of Stathmin in Odontogenic Lesions and its Correlation with Cellular Proliferation: An Observational Study | Dr. Madhusudan Astekar | Dr. Gaurav Sapra |
| 18 | Dr. Suchita Roy | Oral Pathology & Microbiology | Immunohistochemical Expression of Cell Division Cycle 7 in Odontogenic Cysts and Tumors: An Observational Study | Dr. Madhusudan Astekar | Dr. Ashutosh Agarwal<br>Dr. Aditi Murari |
| 19 | Dr. Chanchal Anand | Prosthodontics and Crown & Bridge | Comparison of pH, Uric Acid and C-Reactive Protein Levels in Saliva of Conventional and Chitosan Nanoparticle Incorporated Complete Denture Patients: An In-Vivo Experimental Study | Dr. Anip Kumar Roy | Dr. Chetan Luniyal |
| 20 | Dr. Md Hamza Abrar | Prosthodontics and Crown & Bridge | Effect of Disinfective Agents on the Compressive Strength of Type IV Gypsum Product: An In-Vitro Experimental Study | Dr. Alok Kumar | Dr. Nivedita Dixit |
| 21 | Dr. Nishant Mathew | Prosthodontics and Crown & Bridge | Marginal and Internal Adaptation of Three Different Materials for Endocrown Fabrication – An In-Vitro Experimental Study | Dr. Chandana Nair | Dr. Madhusudan Astekar<br>Dr. Chetan Luniyal |
| 22 | Dr. Sanskriti Rautela | Prosthodontics and Crown & Bridge | Antimicrobial Effectiveness and Linear Dimensional Stability in Irreversible Hydrocolloid Impression Material with Nanoparticles: An Experimental Study | Dr. Chandana Nair | Dr. Nivedita Dixit<br>Dr. Deepika Verma |
| 23 | Dr. Saurabh Agarwal | Prosthodontics and Crown & Bridge | Comparative Evaluation of Marginal Fit for Recorded Impressions From Dissimilar Surface Treatment on the Implant Open Tray Impression Coping: An Observational Study | Dr. M K Singhal | Dr. Nivedita Dixit<br>Dr. Madhusudan Astekar |
| 24 | Dr. Sonali Garg | Prosthodontics and Crown & Bridge | Stereomicroscopic Evaluation of Marginal Accuracy of Casted Abutment from Model Scan Body: An Observational Study | Dr. M K Singhal | Dr. Madhusudan Astekar<br>Dr. Chetan Luniyal |

| | | | | | |
|---|---|---|---|---|---|
| 25 | Dr. Jyochhnarani Sahoo | Public Health Dentistry | Antibacterial Effect of Camellia Sinensis and Psidium Guajava Extract Mouthwash against Streptococcus Mutans and its Molecular Characterization: A Randomized Controlled Trial | Dr. Shivalingesh K.K | Dr. Smriti Saxena |
| 26 | Dr. Palak Gangwar | Public Health Dentistry | Effectiveness of BioMin, NovaMin, Syzygium aromaticum, strontium chloride hexahydrate and potassium nitrate in hypersensitivity treatment: A Randomized Controlled Trial | Dr. Chanchal Gangwar | Dr. Saima Ali |
| 27 | Dr. Pallavi Patel | Public Health Dentistry | Assessment of Various aromatherapies among patients having dental anxiety: A Randomized Controlled Trial | Dr. Shivalingesh K.K | |
| 28 | Dr. Sharma Alka Shankarprasad | Conservative Dentistry and Endodontics | Antibacterial Efficacy of Novel Root Canal Irrigant with Vehicles Against Staphylococcus Aureus and Enterococcus Faecalis: An in-vitro Experimental Study | Dr. Chandra Vijay Singh | Dr. Tanu Morya |
| 29 | Dr. Sana Saifi | Conservative Dentistry and Endodontics | Comparative Evaluation of Apical Bacterial Leakage With Two Different Bioceramic Root End Filling Materials: An In Vitro Experimental Study | Dr. Chandra Vijay Singh | Dr. Anmol Mehrotra |
| 30 | Dr. Shubham Shukla | Conservative Dentistry and Endodontics | Push Out Bond Strength Evaluation of Different Root Canal Sealers Under Distinctive Moisture Conditions: An In Vitro Observational Study | Dr. Manoj Kumar Hans | Dr. Rahul Pandey |
| 31 | Dr. Soumya Mishra | Conservative Dentistry and Endodontics | Stereomicroscopic Evaluation of Sealing Ability Among Various Root Canal Sealers: An In Vitro Observational Study | Dr. Manoj Kumar Hans | Dr. Madhusudan Astekar |
| 32 | Dr. Sumant Raj | Conservative Dentistry and Endodontics | Effect of Various Irrigating Solutions on the Push-Out Bond Strength in Calcium Silicate Based Furcal Perforation Repair Materials: An In Vitro Observational Study | Dr. Anurag Singhal | Dr. Saummya Singh |
| 33 | Dr. Vaishnavi Gupta | Conservative Dentistry and Endodontics | Stereomicroscopic Evaluation of Dentinal Microcracks After Instrumentation With Rotary and Reciprocating File System- An In Vitro Observational Study | Dr. Rahul Pandey | Dr. Manoj Kumar Hans<br>Dr. Madhusudan Astekar |
| 34 | Dr. Joyroop Ghosh | Pediatric and Preventive Dentistry | Shear Bond Strength Comparison for Various Luting Materials used in the cementation of Space Maintainers: An Analytical Study | Dr. Pallavi Vashisth | Dr. Shivangi Shrma |
| 35 | Dr. Patil Vidhina Bapurao | Pediatric and Preventive Dentistry | Comparative Evaluation of Zinc Oxide - Eugenol with Zinc Oxide - Myristica Fragrans Oil Mixture and Zinc Oxide - Ozonated Oil Mixture as Obturating Materials in Primary Molars: A Randomized Clinical Trial | Dr.Sathyajith Naik N | Dr. Shivangi Shrma |
| 36 | Dr. Surbhi Saxena | Pediatric and Preventive Dentistry | Comparative Evaluation of Calcium Ion Release and pH Changes among Three Intracanal Medicaments in Simulated Periapical Environment- An Observational Study | Dr. Anshul | |

## THESIS DETAILS OF POSTGRADUATE STUDENTS (Batch 2021-2024)

| Sl. No. | Name of Student | Speciality | Topic | Name of Supervisor | Name of Co-Supervisors |
|---|---|---|---|---|---|
| 1 | Dr. Amrita | Periodontology and Implantology | Effects of Non-Surgical Therapy on Human Fetuin-A Levels in Patients with Chronic Periodontitis: An Observational Study | Dr. Prerna Agarwal | |
| 2 | Dr. Divyata Widhani | Periodontology and Implantology | Interdental Papilla Augmentation Using Hyaluronic Acid in Aesthetic Zone: A Minimally Invasive Approach | Dr. Manvi Chandra Agarwal | |
| 3 | Dr. Kavya Khulbe | Periodontology and Implantology | Titanium platelet rich fibrin Versus Connective Tissue Graft with Coronally Advanced Flap for Treating Gingival Recession Defects: An Interventional Study | Dr. Rika Singh | |
| 4 | Dr. Parth Mehra | Periodontology and Implantology | Association Between Maternal Periodontitis and Pre-Term Low Birth Weight: A Cross Sectional Clinico-Microbiological Study | Dr. Jaishree Garg | Dr. Ranjana Gupta |
| 5 | Dr. Puru Abbey | Periodontology and Implantology | Clinical Evaluation of Coconut Oil Pulling Practice Versus Curcumin Based Mouthwash in Plaque Induced Gingivitis: An Interventional Study | Dr. Jaishree Garg | |
| 6 | Dr. Tripti Mohan | Periodontology and Implantology | Evaluation of Sticky Bone with and without Intramarrow Penetration in the Treatment of Periodontal Intrabony Defects: An Interventional Study | Dr. Rika Singh | |
| 7 | Dr. Archit Bahadur | Orthodontics and Dentofacial Orthopedics | Efficiency of Transcutaneous Electrical Nerve Stimulation and Piroxicam to Alleviate Pain During Orthodontic Tooth Separation: A Prospective Study | Dr. Anil Kumar Chandna | Dr. Ravi Bhandari |
| 8 | Dr. Hema Taragi | Orthodontics and Dentofacial Orthopedics | Relationship of the Impacted Maxillary Canine with the Morphology of Adjacent Lateral Incisor: A Retrospective study | Dr. Ankur Gupta | |
| 9 | Dr. Zarin Fatima | Orthodontics and Dentofacial Orthopedics | A Comparative Assessment of Mandible and Condylar Position in Patients with Class II Div 2 Incisor Pattern after Alignment and Levelling Phase: A Prospective Study | Dr. Preeti Bhattacharya | Dr. Shivani Singh<br>Dr. Ashutosh Agarwal |
| 10 | Dr. Abhinab Dutta | Conservative Dentistry and Endodontics | Effect of Rotary Vs Hand Files on Peri-Cervical Dentin and Canal Transportation Using Cone Beam Computed Tomography: An Observational study | Dr. Chandra Vijay Singh | Dr. Tanu Morya |
| 11 | Dr. Anish Kumar Maity | Conservative Dentistry and Endodontics | Evaluation of the Root and Root Canal Morphology of Maxillary Second Molar in Western U.P. using Spiral Computed Tomography: In-Vitro Observational Study | Dr. Rahul Pandey | Dr. Ashish Aggarwal |
| 12 | Dr. Nirma Bharati | Conservative Dentistry and Endodontics | Single Visit Versus Two Visit Endodontic Treatment in Mandibular First Molar with Asymptomatic Irreversible Pulpitis: A Randomised Clinical Control Trial | Dr. Manoj Kumar Hans | |

| 13 | Dr. Shubhi Gupta | Conservative Dentistry and Endodontics | Prevalence of the Histological Characteristics in Various Teeth of Different Age Groups: An Observational in Vitro Study | Dr. Rashmi Bansal | Dr. Madhusudan Astekar |
| 14 | Dr. Varnika Saxena | Conservative Dentistry and Endodontics | Comparative Evaluation of Retrievability of Gutta Percha Obturated with Different Sealers Using Different Retreatment File Systems: An Observational in-vitro Study | Dr. Chandra Vijay Singh | Dr. Rahul Pandey |
| 15 | Dr. Mohd. Wasil Khan | Conservative Dentistry and Endodontics | Morphometric Analysis of the Anatomical Landmarks in Human Maxillary First Premolars Pulp Chamber using Spiral Computed Tomography: An Observational Study | Dr. Manoj Kumar Hans | Dr. Ashsih Aggarwal<br>Dr. Saummya Singh |
| 16 | Dr. Panwanjot Singh | Oral Medicine and Radiology | Estimation of Age by Pulp Tooth Ratio in the Canines using Radiovisiography: An Observational Study | Dr. Nitin Upadhyay | Dr. Sowmya GV |
| 17 | Dr. Rupali Pandey | Oral Medicine and Radiology | Digital Radiographic Evaluation of Mandibular Ramus for Gender Determination: An Observational Retrospective Cohort study | Dr. Ashish Aggarwal | Dr. Sowmya GV |
| 18 | Dr. Karandeep Singh Virk | Oral Medicine and Radiology | Diagnostic Efficiency of Clinical Examination Versus Panoramic Radiography: A Cross Sectional Study | Dr. Nupur Agarwal | Dr. Sowmya GV |
| 19 | Dr. Namrata Vishwakarma | Oral and Maxillofacial Surgery | Efficacy of Lambda Plate for Open Reduction and Internal Fixation of Subcondylar Fractures of the Mandible: A Prospective Clinical Study | Dr. S. Gokkulakrishnan | Dr. Anurag Yadav<br>Dr. Niranjanaprasad Indra B<br>Dr. Himanshu Pratap Singh |
| 20 | Dr. Niyati Mishra | Oral and Maxillofacial Surgery | Efficacy of Superficial Cervical Plexus Block in Incision and Drainage of Facial Space Infections: A Prospective Clinical Study | Dr. S. Gokkulakrishnan | Dr. Malti Agarwal<br>Dr. Sarfaraz Ahmad<br>Dr. Niranjanaprasad Indra B<br>Dr. Himanshu Pratap Singh |
| 21 | Dr. Prashant Kumar Manjul | Oral and Maxillofacial Surgery | Comparative Evaluation of Sentinel Node Biopsy Based on Indocyanine Green Dye and Histopathology in Oral Squamous Cell Carcinoma: A Descriptive Observational Study | Dr. Anurag Yadav | Dr. S. Gokkulakrishnan<br>Dr. Arjun Agarwal<br>Dr. Himanshu Pratap Singh<br>Dr. Archana Chaurasia |
| 22 | Dr. Shreya Chitkara | Oral and Maxillofacial Surgery | Intra-Articular Injection of Hyaluronic Acid and Corticosteroid Versus Arthrocentesis in the Treatment of Temporomandibular Joint Internal Derangement: A Prospective Clinical Study | Dr. Niranjanaprasad Indra B | Dr. S. Gokkulakrishnan<br>Dr. Anurag Yadav<br>Dr. Archana Chaurasia |
| 23 | Dr. Uday Rastogi | Oral and Maxillofacial Surgery | Anesthetic Efficacy of Bupivacaine, Ropivacaine and Lidocaine in Inferior Alveolar Nerve Block Technique in Oral Surgical Procedures: An Observational Study | Dr. Niranjanprasad Indra B. | Dr. S. Gokkulakrishnan<br>Dr. Anurag Yadav<br>Dr. Himanshu Pratap Singh<br>Dr. Bhart Vashishat |
| 24 | Dr. Vishal Mishra | Oral and Maxillofacial Surgery | Management of Angle Fracture by 3-Dimensional Rectangular Grid Plate: A Prospective Clinical Study | Dr. Himanshu Pratap Singh | Dr. S. Gokkulakrishnan<br>Dr. Anurag Yadav<br>Dr. Archana Chaurasia<br>Dr. Bhart Vashishat |
| 25 | Dr. Jean N Murry | Pediatric and Preventive Dentistry | Effect of Various Storage Media on Fracture Resistance of Reattached Tooth Fragmeant: An Observational Study | Dr. Sathyajith Naik. N | Dr. Shivangi Sharma |

| | | | | | |
|---|---|---|---|---|---|
| 26 | Dr. Vaishnavi Singh | Pediatric and Preventive Dentistry | Comparative Evaluation of Longevity of Fluoride Release from Three Different Fluoride Varnishes: An Observational Study | Dr. Sathyajith Naik. N | Dr. Pallavi Vashisth |
| 27 | Dr. Mayurika | Pediatric and Preventive Dentistry | Comparative Evaluation of the Sealing Ability of Different Root Canal Sealers: An Observational Study | Dr. Anshul | Dr. Shivangi Sharma |
| 28 | Dr. Aditi Rathi | Prosthodontics and Crown & Bridge | The Comparative Evaluation of Two Implant Hex Design Systems on the Accuracy of Impressions by using Two Different Materials: An In-Vitro Study | Dr. Mukesh Kumar Singhal | Dr. Nivedita Dixit |
| 29 | Dr. Raut Akash Chandraprakash | Prosthodontics and Crown & Bridge | Effect of Addition with Nanoparticles on Shear Bond Strength and Antifungal Activity in Soft Denture Liner: An In–Vitro Study | Dr. Chandana Nair | Dr. Chetan Luniyal Dr. Deepika Verma |
| 30 | Dr. Shalini Chauhan | Prosthodontics and Crown & Bridge | Effect of Sandblasting or Acid Etching on the Retention of Glass Fiber Posts Luted with Resin Cement: An In-Vitro Study | Dr. Alok Kumar | Dr. Chetan Luniyal |
| 31 | Dr. Vishwajyoti Singh | Prosthodontics and Crown & Bridge | Comparative Evaluation of Marginal Adaptation and Microleakage of Metal Crowns and All Ceramic Zirconia Crown Luted with Permanent Cement: An In-Vitro Study | Dr. Anip Kumar Roy | Dr. Madhusudan Astekar Dr. Nivedita Dixit |
| 32 | Dr. Waghmare Anagha Hemshankar | Prosthodontics and Crown & Bridge | Effect of Addition Nanoparticles on Flexural Strength and Surface Hardness in Heat Cure Acrylic Resin: An In–Vitro Study | Dr. Chandana Nair | Dr. Chetan Luniyal |
| 33 | Dr. Anushtha Kushwaha | Public Health Dentistry | Assessment and Prevalence of Patterns of Tobacco Use and Associated Oral Lesions Among Tobacco Consuming Population in Bareilly City: A Cross-Sectional Study | Dr. Shivalingesh K. K. | Dr. Chanchal Gangwar |
| 34 | Dr. Krishna | Public Health Dentistry | Assessing Oral Health Related Quality of Life of Cane Furniture Industry Workers in Bareilly City: A Cross Sectional Study | Dr. Puneet Gupta | Dr. Shivalingesh K. K. |
| 35 | Dr. Prasanjeet Kumar | Public Health Dentistry | Comparative Evaluation of Herbal and Non-Herbal Toothpaste Among 20–40 Year Old Patients in Bareilly City: A Randomized Controlled Trial | Dr. Shivalingesh K. K. | Dr. Chanchal Gangwar |
| 36 | Dr. Arunima | Oral Pathology & Microbiology | Immunohistochemical Expression of Paxillin in Ameloblastoma and Odontogenic Keratocyst: An Observational Study | Dr. Madhusudan Astekar | Dr. Gaurav Sapra |

# INSTITUTE OF DENTAL SCIENCES, BAREILLY UP

## LIST OF MDS 2ND YEAR STUDENTS SYNOPSIS DETAILS (Batch 2019)

| Sl. No. | Name of Student | Speciality | Topic | Name of Supervisor | Name of Co-Supervisors (if any) |
|---|---|---|---|---|---|
| 1 | Dr. Darakshan Saifi | Prosthodontics and Crown & Bridge | A comparative evaluation of impression accuracy by using two different elastomeric impression materials in angulated implants: an in-vitro study | Dr. Mukesh Kumar Singhal | Dr. Nivedita Dixit |
| 2 | Dr. Isha Saxena | Prosthodontics and Crown & Bridge | Marginal accuracy of cast copings fabricated by ring-less and metal ring with and without liner: an in-vitro study | Dr. Alok Kumar | Dr. Madhusudan Astekar |
| 3 | Dr. Kumari Sweta Prakash | Prosthodontics and Crown & Bridge | Comparative evaluation of flexural strength in provisional fixed partial denture materials stored under different solutions: an in-vitro study | Dr. Chandana Nair | Dr. Chetan Luniyal |
| 4 | Dr. Priyanka Chourasiya | Prosthodontics and Crown & Bridge | Comparative evaluation of various dentin desensitizers on retention for full crowns using two different luting cements: an in-vitro study | Dr. Chandana Nair | Dr. Anuj Kishor Shukla |
| 5 | Dr. Rashmi Joshi | Prosthodontics and Crown & Bridge | To evaluate dimensional accuracy of casts on repeat pours with addition silicone impression materials: an in-vitro study | Dr. Nitin Rastogi | Dr. Alok Kumar |
| 6 | Dr. Sonal Singh | Prosthodontics and Crown & Bridge | A comparison of relative positional accuracy of three commercially available removable die systems with different design:an in vitro study | Dr. Mukesh Kumar Singhal | Dr. Anip Kumar Roy |
| 7 | Dr. Kunche Lavanya | Periodontology and Implantology | Comparative evaluation of pin hole surgical technique and semilunar coronally repositioned flap for treatment of gingival recession | Dr. Manvi Chandra Agarwal | Dr. Prerna Agarwal |

| | | | | | |
|---|---|---|---|---|---|
| 8 | Dr. Lubna Shoaib | Periodontology and Implantology | Comparative evaluation of biphasic calcium phosphate bioceramics and titanium-platelet rich fibrin with intra marrow penetration in treating grade II furcation defects | Dr. Hirak Bhattacharya | Dr. Prerna Agarwal |
| 9 | Dr. Nidhi Pandey | Periodontology and Implantology | Comparative evaluation of vestibular incision subperiosteal tunnel access versus coronally advanced flap with platelet rich fibrin in miller's class I gingival recession defects | Dr. R. G. Shiva Manjunath | Dr. Manvi C. Agarwal<br>Dr. Jaishree Garg |
| 10 | Dr. Parth Sharma | Periodontology and Implantology | Advanced – platelet rich fibrin with and without intra marrow penetration in the treatment of periodontal intrabony defects: a randomised controlled trial | Dr. R. G. Shiva Manjunath | Dr. Rika Singh |
| 11 | Dr. Satyaki Verma | Periodontology and Implantology | Bone regeneration around immediate implant using sticky bone: a clinico-radiographic study | Dr. Hirak Bhattacharya | Dr. Manvi C Agarwal |
| 12 | Dr. Abhishek Singh Panwar | Oral and Maxillofacial Surgery | A comparative evaluation of socket preservation using demineralized freeze dried bone graft and freez dried bone graft combined with advanced platelet rich fibrin and extraction alone | Dr. Ramakant Dandriyal | Dr. Anurag Yadav<br>Dr. Niranjanaprasad Indra B.<br>Dr. Bhart Vashishat<br>Dr. Ashish Aggarwal |
| 13 | Dr. Ankita Kapoor | Oral and Maxillofacial Surgery | Comparative evaluation of bupivacaine and lignocaine for mandibular impacted third molar surgery by using inferior alveolar nerve block technique | Dr. Niranjanaprasad Indra B. | Dr. Ramakant Dandriyal<br>Dr. Anurag Yadav<br>Dr. Himanshu Pratap Singh<br>Dr. Bhart Vashishat |
| 14 | Dr. Gaurav Bhagia | Oral and Maxillofacial Surgery | Comparative assessment of maxillofacial space infections amongst diabetic and non-diabetic patients | Dr. Ramakant Dandriyal | Dr. Anurag Yadav<br>Dr. Niranjanaprasad Indra B<br>Dr. Bhart Vashishat |

| | | | | | |
|---|---|---|---|---|---|
| 15 | Dr. Mohit Negi | Oral and Maxillofacial Surgery | Comparison between thoracoacromian artery with lateral thoracic artery and thoracoacromian artery based pectoralis major myocutaneous flap for reconstruction in oral cancer defects | Dr. Anurag Yadav | Dr. Ramakant Dandriyal<br>Dr. Arjun Aggarwal<br>Dr. Himanshu Pratap Singh |
| 16 | Dr. Priyank Gupta | Oral and Maxillofacial Surgery | Evaluation of immediate functional loading of basal implants: a clinical study | Dr. Himanshu Pratap Singh | Dr. M. K. Singhal<br>Dr. Ramakant Dandriyal<br>Dr. Ashish Aggarwal<br>Dr. Anurag Yadav<br>Dr. Bhart Vashishat |
| 17 | Dr. Sumit Bhatt | Oral and Maxillofacial Surgery | Comparative evaluation among clinico-radiological and histopathological neck node staging among patients with oral cancer-an ambidirectional cohort study | Dr. Anurag Yadav | Dr. Ramakant Dandriyal<br>Dr. Himanshu Pratap Singh<br>Dr. Archana Chaurasiya<br>Dr. Lalit Kumar<br>Dr. Gaurav Sapra<br>Dr. Arjun Agarwal |
| 18 | Dr. Anisha Luthra | Conservative Dentistry And Endodontics | To evaluate the root canal configuration of mandibular premolars using three dimensional imaging: an observational study | Dr. Anuraag Gurtu | Dr. Rashmi Bansal<br>Dr. Atul Mehrotra |
| 19 | Dr. Barnojjwal Dutta | Conservative Dentistry And Endodontics | Antimicrobial efficacy of calcium hydroxide with 2% chlorhexidine and Triple antibiotic paste versus selected herbal formulations against e.coli and staph aureus microorganisms: an in-vitro study | Dr. Varada Hiremath | Dr. Chandra Vijay Singh |

| | | | | | |
|---|---|---|---|---|---|
| 20 | Dr. Pooja Pandey | Conservative Dentistry And Endodontics | Sealing ability of mineral trioxide aggregate, biodentine, glass ionomer cement in repair of perforation – an experimental study | Dr. Ganesh R. Meshram | Dr. Madhusudan Astekar |
| 21 | Dr. Sangam Sivani | Conservative Dentistry And Endodontics | Comparison of antimicrobial efficacy of different intracanal medicaments with propolis as a vehicle – an experimental study | Dr. Chandra Vijay Singh | Dr. Rahul Pandey |
| 22 | Dr. Vertika Mahar | Conservative Dentistry And Endodontics | Comparative evaluation of fracture resistance of root filled teeth restored with different restorative materials: an experimental study | Dr. Rashmi Bansal | Dr. Rahul Pandey |
| 23 | Dr. Yesha Yadav | Conservative Dentistry And Endodontics | Histological evaluation of conservative access cavity design on debridement of root canal system in permanent mandibular molars | Dr. Rashmi Bansal | _ |
| 24 | Dr. Shubhi Gangwar | Orthodontics and Dentofacial Orthopedics | Influence of damon and conventional MBT bracket system on soft tissue and smile esthetics consequent to non-extraction treatment | Dr. Preeti Bhattacharya | Dr. Shivani Singh |
| 25 | Dr. Surabhi Saxena | Orthodontics and Dentofacial Orthopedics | Orthognathic Surgical norms for north indian population- a cephalometric study | Dr. D. K. Agarwal | Dr. Ankur Gupta |
| 26 | Dr. Resham Irshad | Orthodontics and Dentofacial Orthopedics | Assessment of skeletal age and dermatoglyphic patterns in adolescents of various body mass index – a cross sectional study | Dr. Anil Kumar Chandna | Dr. Ravi Bhandari |
| 27 | Dr. Nandita Gautam | Public Health Dentistry | Assessment of depression and oral health among elderly living in old age homes and within family set up in bareilly city: a cross sectional study | Dr. Shivalingesh K. K. | Dr. Puneet Gupta |

| | | | | | |
|---|---|---|---|---|---|
| 28 | Dr. Swati Pathak | Public Health Dentistry | Oral health status and treatment needs among sugar factory workers in bareilly city: a cross-sectional study | Dr. Shivalingesh K. K. | Dr. Puneet Gupta |
| 29 | Dr. Ankita Gupta | Pediatric and Preventive Dentistry | The influence of various irrigating solutions on adaptation of resorbable obturating paste in primary teeth- an experimental study | Dr. Anshul | - |
| 30 | Dr. Shashank Kumar Singh | Pediatric and Preventive Dentistry | Comparative evaluation of hand, rotary and reciprocating files system on crack formation in primary teeth: an observational study | Dr. Sathyajith Naik N. | Dr. Pallavi Vashisth |
| 31 | Dr. Deepshikha | Pediatric and Preventive Dentistry | Evaluation of microleakage among bioactive, alkasite, bulkfill composite restorative materials under a stereomicroscope- an observational study | Dr. Sathyajith Naik N. | Dr. Shivangi Sharma |
| 32 | Dr. Azmi Malik | Oral Medicine and Radiology | Radiographic proximity and relationship of the mandibular third molar to the inferior alveolar canal - an observational study | Dr. Nitin Upadhyay | Dr. Sowmya GV |
| 33 | Dr. Samia Seraj | Oral Medicine and Radiology | Radiographic prevalence of pneumatized articular tubercle– an observational retrospective cohort study | Dr. Ashish Aggarwal | Dr. Nupur Gupta |

# INSTITUTE OF DENTAL SCIENCES, BAREILLY UP

## MDS 1ST YEAR STUDENTS SYNOPSIS DETAIL (Batch 2018)

| Sr. No. | Name of Student | Speciality | Topic | Name of Supervisor | Name of Co-Supervisors (if any) |
|---|---|---|---|---|---|
| 1 | Dr. Astha Khurana | Prosthodontics and Crown & Bridge | A comparative linear measurement of edentulous bone between cone beam computed tomography and dentascan computed tomography in implant patients | Dr. Mukesh Kumar Singhal | Dr. Pratik Gupta<br>Dr. Ashish Aggarwal |
| 2 | Dr. Hemendra Pratap | Prosthodontics and Crown & Bridge | Evaluation of bone density before and after placement of implant using osseodensification technique | Dr. Nitin Rastogi | Dr. Alok Kumar<br>Dr. Ashish Aggarwal |
| 3 | Dr. Mehjabeen Kouser | Prosthodontics and Crown & Bridge | Effect of different denture soft liners on mandibular ridge resorption in complete denture wearers: An in-vivo study | Dr. Chandana Nair | Dr. Sowmya G V<br>Dr. Zainab Khan |
| 4 | Dr. Shikha | Prosthodontics and Crown & Bridge | An evaluation and comparison of microhardness of different types of artificial teeth: An in-vitro study | Dr. Alok Kumar | Dr. Shweta Singh |
| 5 | Dr. Smritashree Baruah | Prosthodontics and Crown & Bridge | Effect of varying ferrule designs on fracture resistance of endodontically treated teeth restored with fiber posts: An in-vitro study | Dr. Chandana Nair | Dr. Anuj K. Shukla |
| 6 | Dr. Vaibhav Budakoti | Prosthodontics and Crown & Bridge | A comparative evaluation of bite pressure between natural teeth and implant prosthesis: An in-vivo study | Dr. Mukesh Kumar Singhal | Dr. Pinki Bankoti |
| 7 | Dr. Deeksha Kulkarni | Conservative Dentistry and Endodontics | Prevalence of more than one root canal and its configuration type in mandibular incisors: An in vitro study | Dr. Anuraag Gurtu | Dr. Rashmi Bansal<br>Dr. Atul Mehrotra |
| 8 | Dr. Mamnoon Ghafir | Conservative Dentistry and Endodontics | Evaluation of accuracy of different apex locators in working length determination: An ex-vivo study | Dr. Rashmi Bansal | Dr. Madhusudan Astekar |
| 9 | Dr. Naveena Gahlot | Conservative Dentistry and Endodontics | Antibacterial efficacy of different intra canal medicaments against Staphylococcus aureus and Escherichia coli | Dr. Varada R. Hiremath | Dr. Ved Prakash<br>Dr. Chandra Vijay Singh |

| | | | | | |
|---|---|---|---|---|---|
| 10 | Dr. Priya Mishra | Conservative Dentistry and Endodontics | An evaluation of anatomical relationship between apices of maxillary teeth and adjacent structures | Dr. Rashmi Bansal | Dr. Ashish Aggarwal<br>Dr. Anuraag Gurtu |
| 11 | Dr. Tanu Morya | Conservative Dentistry and Endodontics | Comparative evaluation of sealing ability of different root end filling materials using dye penetration technique – An in vitro study | Dr. Chandra Vijay Singh | Dr. Madhusudan Astekar<br>Dr. Rahul Pandey |
| 12 | Dr. Trapti Gupta | Conservative Dentistry and Endodontics | Antibacterial efficacy of mineral trioxide aggregate versus calcium hydroxide based sealers against microorganisms: An in vitro study | Dr. Ganesh R. Meshram | Dr. Ved Prakash<br>Dr. Chandra Vijay Singh |
| 13 | Dr. Anjali Gaba | Periodontology and Implantology | Evaluation of intrabony defect treated with advanced and titanium platelet rich fibrin: An in vivo study | Dr. Manvi Chandra Agarwal | Dr. Prerna Agarwal |
| 14 | Dr. Bharti | Periodontology and Implantology | Comparison of hydroxyapatite bone graft with or without injectable platelet rich fibrin in periodontal defects | Dr. Ashish Agarwal | Dr. Jaishree Garg |
| 15 | Dr. Mayank Priyadarshi | Periodontology and Implantology | Evaluation of treatment outcome in periodontal defects using advanced-platelet rich fibrin with or without decalcified freeze-dried bone allograft | Dr. R. G. Shiva Manjunath | Dr. Rika Singh |
| 16 | Dr. Rishabh Srivastava | Periodontology and Implantology | Comparison of conventional flap technique with entire papilla preservation flap in the treatment of human intrabony periodontal defect | Dr. Hirak S. Bhattacharya | Dr. Manvi Chandra Agarwal |
| 17 | Dr. Shreya Maheshwari | Periodontology and Implantology | Potential role of chronic periodontitis in causing reactive thrombocytosis leading to cardiovascular disease: A cross sectional study | Dr. Hirak S. Bhattacharya | Dr. Nitin Agarwal |
| 18 | Dr. Sunil Datt | Periodontology and Implantology | Evaluation of hard and soft tissue changes around implants in cemented and screw retained prosthesis | Dr. R. G. Shiva Manjunath | Dr. Hirak S Bhattacharya |
| 19 | Dr. Ankita Bajaj | Oral and Maxillofacial Surgery | Xenograft versus demineralized freeze-dried bone allograft in maxillary sinus augmentation | Dr. Ramakant Dandriyal | Dr. Niranjanaprasad Indra B<br>Dr. Ashish Aggarwal<br>Dr. Madhusudan Astekar |

| | | | | | |
|---|---|---|---|---|---|
| 20 | Dr. Bharat Veer | Oral and Maxillofacial Surgery | Efficacy of dermabrasion in post traumatic facial scars: A prospective clinical study | Dr. Ramakant Dandriyal | Dr. K. Y. Giri<br>Dr. Niranjanaprasad Indra B |
| 21 | Dr. Jitendra Kumar Diwakar | Oral and Maxillofacial Surgery | Inferior alveolar nerve block versus gow-gates technique in impacted lower third molar surgeries | Dr. K. Y. Giri | Dr. Ramakant Dandriyal<br>Dr. Niranjanaprasad Indra B |
| 22 | Dr. Mohd Asjad Raza | Oral and Maxillofacial Surgery | The efficacy of interpositional dermal fat graft in the management of temporomandibular joint ankylosis | Dr. Himanshu Pratap Singh | Dr. K. Y. Giri<br>Dr. Niranjanaprasad Indra B |
| 23 | Dr. Om Vachaspati | Oral and Maxillofacial Surgery | Comparison between physics forceps and conventional forceps in lower premolar teeth extraction | Dr. Niranjanaprasad Indra B | Dr. K. Y. Giri<br>Dr. Ramakant Dandriyal |
| 24 | Dr. Sakshi Gupta | Oral and Maxillofacial Surgery | Comparison of one versus two titanium miniplate in the treatment of mandibular angle fractures | Dr. K. Y. Giri | Dr. Ramakant Dandriyal<br>Dr. Niranjanaprasad Indra B |
| 25 | Dr. Akash Prakash Singh | Orthodontics and Dentofacial Orthopedics | Assessment of variation in morphology of maxillary central incisors in different incisal classes | Dr. Preeti Bhattacharya | Dr. Juhi Ansar |
| 26 | Dr. Priyanshi | Orthodontics and Dentofacial Orthopedics | Agenesis of third molar and its correlation with development of adjacent second molar – A retrospective study | Dr. Anil Kumar Chandna | Dr. Ravi Bhandari |
| 27 | Dr. Sumit Joshi | Orthodontics and Dentofacial Orthopedics | Effect of micro-osteoperforation on the rate of canine retraction – A split mouth study | Dr. Deepak Kumar Agarwal | Dr. Ankur Gupta |
| 28 | Dr. Shakir Alam | Oral Pathology and Microbiology | Immunohistochemical expression of paxillin in potentially malignant disorders and squamous cell carcinoma patients | Dr. Madhusudan Astekar | Dr. Gaurav Sapra<br>Dr. Ashutosh Agarwal |
| 29 | Dr. Adeeba Saleem | Public Health Dentistry | Assessment of palmar patterns and dermatoglyphics in oral cancer patients of Bareilly city: An observational study | Dr. Puneet Gupta | Dr. Shivalingesh K. K. |
| 30 | Dr. Divya Srivastava | Public Health Dentistry | A randomized controlled trial of clinical efficacy between a probiotic and 0.2% chlorhexidine mouthrinse on oral health | Dr. Shivalingesh K. K. | Dr. Puneet Gupta |

| | | | | | |
|---|---|---|---|---|---|
| 31 | Dr. Henna Mir | Public Health Dentistry | Evaluation of two adhesive systems on the pit and fissure sealant success in permanent molars: An in vivo study | Dr. Shivalingesh K. K. | Dr. Puneet Gupta |
| 32 | Dr. Ankita Chandak | Pediatric and Preventive Dentistry | Evaluating the efficacy of various anesthetic sprays and gels while placing rubber dam clamp: An in-vivo split mouth study | Dr. Sathyajith Naik. N. | Dr. Pallavi Vashisth |
| 33 | Dr. Kanika Sharma | Pediatric and Preventive Dentistry | Comparative evaluation of fracture strength of newer restorative materials with conventional amalgam in class II cavity preparation | Dr. Sathyajith Naik. N. | Dr. Shivangi Sharma |
| 34 | Dr. Pankhuri Priya | Pediatric and Preventive Dentistry | Relationship between dental age, skeletal maturation and body mass index: An analytical study | Dr. Anshul | Dr. Preeti Bhattacharya |
| 35 | Dr. Kratika Mohan | Oral Medicine and Radiology | Condylar morphology in orthopantomograph – A retrospective study | Dr. Sunil R. Panat | Dr. Nitin Upadhyay |
| 36 | Dr. Supriya Naren | Oral Medicine and Radiology | Positioning errors in digital panoramic radiographs – A retrospective study | Dr. Ashish Aggarwal | Dr. Nupur Gupta |
| 37 | Dr. Swati Goley | Oral Medicine and Radiology | Odontogenic primary fascial space infections – A cross sectional study | Dr. Sunil R. Panat | Dr. Sowmya G V |

# PROTOCOL OF THESIS

to be submitted to the
Bareilly International University, Bareilly
for the Degree of

## MASTER OF DENTAL SURGERY

## (CONSERVATIVE DENTISTRY AND ENDODONTICS)

**(2024-2027)**

INSTITUTE OF DENTAL SCIENCES
BAREILLY
Excellence towards profession

# EVALUATION OF APICAL MICROLEAKAGE OF HYDROPHILIC AND HYDROPHOBHIC ROOT CANAL SEALERS: AN IN VITRO OBSERVATIONAL STUDY

**Dr. Archita Goel**

**Institute of Dental Sciences**
**Bareilly, U.P. (INDIA)**

Scanned with OKEN Scanner

# PROTOCOL OF THESIS

to be submitted to the
Bareilly International University, Bareilly
for the Degree of

## MASTER OF DENTAL SURGERY

## (CONSERVATIVE DENTISTRY AND ENDODONTICS)

**(2024-2027)**

INSTITUTE OF DENTAL SCIENCES
BAREILLY
Excellence towards profession

# EFFECT OF VARIOUS COMBINATION OF BIOMATERIALS ON OXYGEN RELEASE AND pH LEVELS IN SIMULATED ROOT RESORPTION CAVITIES: AN IN-VITRO OBSERVATIONAL STUDY

**Dr. Palak Jain**

**Institute of Dental Sciences**
**Bareilly, U.P. (INDIA)**

Scanned with OKEN Scanner

# PROTOCOL OF THESIS

to be submitted to the
Bareilly International University, Bareilly
for the Degree of

## MASTER OF DENTAL SURGERY

## (ORAL MEDICINE AND RADIOLOGY)

**(2024-2027)**

# ANALYSIS OF INTERRADICULAR SEPTUM CHARECTERISTICS IN MAXILLARY MOLARS-A CONE BEAM COMPUTED TOMOGRAPHIC STUDY

**Dr. RAVI KUMAR**

**Institute of Dental Sciences**
**Bareilly, U.P. (INDIA)**

Scanned with OKEN Scanner

# PROTOCOL OF THESIS

to be submitted to the
Bareilly International University, Bareilly
for the Degree of

## MASTER OF DENTAL SURGERY

## (PROSTHODONTICS AND CROWN & BRIDGE)

**(2024-2027)**

# EFFECT OF FIBRE REINFORCEMENT ON FLEXURAL STRENGTH IN HEAT POLYMERIZED POLYMETHYL METHACRYLATE DENTURE BASE RESIN: AN IN-VITRO STUDY

**Dr. Mayank Kumar**

**Institute of Dental Sciences**
**Bareilly, U.P. (INDIA)**

Scanned with OKEN Scanner

# PROTOCOL OF THESIS

to be submitted to the
Bareilly International University, Bareilly
for the Degree of

## MASTER OF DENTAL SURGERY

## (ORAL AND MAXILLOFACIAL SURGERY)

**(2024-2027)**

# VARIOUS PATTERNS OF TERMINAL BRANCHS OF FACIAL NERVE ON FACE: A CADAVERIC STUDY

**Dr. Ashish Kumar**

**Institute of Dental Sciences**
**Bareilly, U.P. (INDIA)**

BIODATA OF THE CANDIDATE

Scanned with OKEN Scanner

# PROTOCOL OF THESIS

to be submitted to the

Bareilly International University, Bareilly

for the Degree of

## MASTER OF DENTAL SURGERY

## (SPECIALITY)

**(Session 2023-2026)**

INSTITUTE OF DENTAL SCIENCES
BAREILLY
Excellence towards profession

## TITLE OF THE STUDY

**Comparative evaluation of different teeth whitening agents on extrinsic stains: An In-Vitro Study**

**Name of the Candidate**
**Meghna Bhargava**

**Institute of Dental Sciences**

**Bareilly, U.P. (INDIA)**

Scanned with OKEN Scanner

# PROTOCOL OF THESIS

to be submitted to the
Bareilly International University, Bareilly
for the Degree of

## MASTER OF DENTAL SURGERY

## (PERIODONTOLOGY & IMPLANTOLOGY)

**(2023-2026)**

# EFFECTS OF NON-SURGICAL THERAPY ON HUMAN GHRELIN LEVELS IN PATIENTS WITH CHRONIC PERIODONTITIS: AN OBSERVATIONAL STUDY

**Dr. Shivani Gupta**

**Institute of Dental Sciences**
**Bareilly, U.P. (INDIA)**

Scanned with OKEN Scanner

# PROTOCOL OF THESIS

to be submitted to the
Bareilly International University, Bareilly
for the Degree of

## MASTER OF DENTAL SURGERY

## (CONSERVATIVE DENTISTRY AND ENDODONTICS)

**(2022-2025)**

# COMPARATIVE EVALUATION OF APICAL BACTERIAL LEAKAGE WITH TWO DIFFERENT BIOCERAMIC ROOT END FILLING MATERIALS: AN IN VITRO EXPERIMENTAL STUDY

**Dr. Sana Saifi**

**Institute of Dental Sciences**
**Bareilly, U.P. (INDIA)**

Scanned with OKEN Scanner

# PROTOCOL OF THESIS

to be submitted to the
Bareilly International University, Bareilly
for the Degree of

## MASTER OF DENTAL SURGERY

## (ORAL MEDICINE AND RADIOLOGY)

(2022-2025)

# RADIOGRAPHIC EVALUATION OF THE ANTERIOR LOOP OF INFERIOR ALVEOLAR NERVE USING CONE BEAM COMPUTED TOMOGRAPHY – AN OBSERVATIONAL STUDY

**Dr. Fatima Injela Khan**
**Institute of Dental Sciences**
**Bareilly, U.P. (INDIA)**

Scanned with OKEN Scanner

# PROTOCOL OF THESIS

to be submitted to the
Bareilly International University, Bareilly
for the Degree of

## MASTER OF DENTAL SURGERY

## (ORAL PATHOLOGY AND MICROBIOLOGY)

(2022-2025)

# "IMMUNOHISTOCHEMICAL EXPRESSION OF STATHMIN IN ODONTOGENIC LESIONS AND ITS CORRELATION WITH CELLULAR PROLIFERATION: AN OBSERVATIONAL STUDY"

**Dr. Sonal Upadhyay**

**Institute of Dental Sciences**
**Bareilly, U.P. (INDIA)**

Scanned with OKEN Scanner

# PROTOCOL OF THESIS

to be submitted to the
Bareilly International University, Bareilly
for the Degree of

## MASTER OF DENTAL SURGERY

## (PUBLIC HEALTH DENTISTRY)

(2022-2025)

# EFFECTIVENESS OF BIOMIN, NOVAMIN, SYZYGIUM AROMATICUM, STRONTIUM CHLORIDE HEXAHYDRATE AND POTASSIUM NITRATE IN HYPERSENSITIVITY TREATMENT: A RANDOMIZED CONTROLLED TRIAL

**Dr. Palak Gangwar**

**Institute of Dental Sciences**
**Bareilly, U.P. (INDIA)**

Scanned with OKEN Scanner
