The institution has a well defined Research promotion policy and the same is uploaded on the institutional website

Response:

Introduction

Bareilly International University, Bareilly has a well-defined Research Promotion Policy according to the UGC norms. The policy establishes the research ecosystem and framework within which academic staff, research scholars, postgraduates and undergraduate students, organizations and research institutions partner to conduct research. University provides intellectually inspiring, academically challenging and supportive environment conducive to personal growth by engaging in innovative and leading-edge research within and across disciplines.

Bareilly International University, Bareilly ensures that the highest norms and standards of an intellectual activity are embraced in research. It is governed by policies and procedures that include, but it is not limited to standards of conduct; conflict of interest and commitment; intellectual property; sponsored research etc. Any kind of information, facility, guidance and knowledge which is used in the form of training/seminar, outreach/extension program, basic research or human clinical research is guided by the Research Promotion Policy. Visibility and dissemination of the information as per the policy document is done by providing a copy of the research policy, continuous updates of the same on website, and providing a copy of the policy in all constituent college offices.

It covers all aspects related to varied areas like research planning; generation and utilization of funding resources for research; extra-mural & intra-mural grants including conference grants, material grants, travel grant; study leaves; awards; career and salary incentives and bonuses.

The policy encourages dissemination of research output through quality publications in reputed journals, presentations in International and national

conferences, as well as generation of Intellectual property with potential for commercialization.

The Board of Research is the main proactive body that controls the overall functioning of research work through various constituent committees. Through effective modus operandi of Board of Research, it monitors and provides information about research work in the campus; guides and encourages the individual research work and subsequent grants and awards.

Impact and Research Outcome

In the last five years many articles have been published in scientific journals. Total contributions in book is also many in numbers have been initiated. This has steadily increased over the last few years due to the policies of Board of Research.

Many collaborations with Govt. and Non-Govt. agencies like WHO, ICMR, Govt. of Uttar Pradesh for COVID-19 Hospital, Heart and Lung Transplant Centre. The number of research projects funded by the government and Non - government increased to for the last 5 years.

Many faculty members achieved external fellowships, several projects sanctioned intra-mural grants, many faculty members provided with travel/conference grants in recent years reflecting the developing increasing the research acumen culture in the university.

The innovation policies of BIU have encouraged its copyright & patent filings and many start-ups in the recent years.

The Institute encourages faculty members and students to undertake research, leading to improvement in the quality of life, People around them. It focuses on national, state and local community development that has socially useful outcome.

Bareilly International University, Bareilly
