seminars by different departments which have been conducted on Good clinical practice.

Research methodology is the specific procedure or technique used to identify, select, process, and analyze information about a topic. In a research paper, the methodology section allows the reader to critically evaluate a study's overall validity and reliability. Each year our institution conducts more than 50 seminars through different departments on research methodology for the benefit of the students & faculty members. Various research methodology workshops have also been organized which allows maximum participants to know the intrinsic details of the topic.

Intellectual Property Rights form an important pillar for research in any institution. The university implements the policy and programs regarding the same through IPR cell. In the recent years more than 5 programs giving the benefit to more than 1000 participants have been successfully conducted by the institute including program by various government bodies like NIPAM.

The Industry-Academia Partnership is an association that fosters R&D and innovation by bringing together industry and university partners in pursuit of timely themes in applications and infrastructure. Various programs with more than 500 participants have been conducted by the institute in collaboration with various industries for the betterment and upliftment of the institute and the participants.

Lab Collection Practice: Laboratory tests contribute vital information about a patient's health. Correct diagnostic and therapeutic decisions rely, in part, on the accuracy of test results. Adequate patient preparation, specimen collection, and specimen handling are essential prerequisites for accurate test results. The accuracy of test results is dependent on the integrity of specimens. Various seminars and workshops pertaining to various collection methods have been organised for the more than 500 participants to get a hold on the topic including NABH and NABL Training Programs.

Workshops/seminars conducted on Intellectual Property Rights (IPR) Research methodology, Good clinical Practice, Laboratory, Pharmacy and Collection practices, Research Grant writing and Industry-Academia Collaborations during the last five years

Response:

Introduction

Bareilly International University, Bareilly constantly promotes activities for strengthening students and faculty members in terms of IPR, Research Methodology, Good Clinical Practice, Industry Academia Partnership, Lab Collection Practice, Biostatistics, Research Grant Writing, and other activities since its inception.

The university has an Innovation Cell which promotes new ideas and innovations via startups. Intellectual Property Rights (IPR) Cell looks after the protection and upliftment of intellectual property in the university. The Industry-Institute Partnership (IIP) Cell helps create awareness about Entrepreneurship pursuits amongst student community and actively pursue the Industry- Institute partnership agendas. The R&D (Research & Development) Cell provides intramural grants for research and advanced studies.

Good Clinical Practice (GCP) is an international ethical and scientific quality standard for the design, conduct, performance, and monitoring, auditing, recording, analyses and reporting of clinical trials. More than 15000 participants has taken advantage of more than 500 workshops including Regional anesthesia, Cadaveric Skull Base and Temporal Bone Dissection, USG Guided Nerve Block, Pediatric Gastro CME, Current Concept in Mechanical Ventilation, BLS/ACLS Course, Pediatric Gastro Intervention, Cadaveric Thyroid Surgery Dissection Workshop, Medical consideration in dental practice, Management of common oral disorders, Dermato-surgery workshop, Otology Surgical Workshop, Update on Mechanical Ventilation, Basic Life Support and COLS, and other workshops as well as

INTELLECTUAL PROPERTY RIGHTS (IPR) AND CONSULTANCY POLICY

Purpose

This policy establishes a framework for managing Intellectual Property Rights (IPR) and consult activities at Bareilly International University, Bareilly. It defines guidelines for revenue sha capacity building, and the development of a sustainable environment for research, innovation, consultancy.

Objectives

1. To promote and safeguard intellectual property created within the university.
2. To encourage faculty, staff, and students to engage in consultancy projects and contribute knowledge transfer.
3. To ensure equitable revenue sharing between the institution and individuals.
4. To build capacity through training programs for effective participation in IPR and consultancy activities.
5. To strengthen industry-academia collaboration for mutual benefit.

Scope

This policy applies to:

- Faculty members (full-time, part-time, and visiting).
- Non-teaching staff involved in consultancy or IPR-related projects.
- Students (undergraduate, postgraduate, and research scholars).
- External collaborators engaged in joint projects with the university.

Policy Guidelines

1. Intellectual Property Rights (IPR)

1. **Ownership of IP:**
    - Intellectual property created using university resources or during official assignm will be co-owned by the university and the creators.
    - For externally funded projects, ownership will follow the agreement terms with funding agencies.
2. **Revenue Sharing for IP Commercialization:**
    - The revenue generated from the commercialization of IP (e.g., patents, copyrights trademarks) will be shared between the university and the creator(s).
    - A typical revenue-sharing model:
        - 60% to the creator(s).
        - 40% to the university for infrastructure and administrative support.
    - For collaborations with external parties, revenue sharing will adhere to mutually agreed terms.

3. **Support for IP Filing:**
    - The university will provide financial and administrative support for filing patents, copyrights, and trademarks.
    - Incentives will be given for granted patents and other IP assets.

2. Consultancy Activities

1. **Encouragement of Consultancy Projects:**
    - Faculty and staff are encouraged to undertake consultancy projects with industry, government organizations, and other external entities.
    - Projects must align with the university's mission and ethical standards.
2. **Revenue Sharing for Consultancy Services:**
    - Revenue from consultancy projects will be shared as follows:
        - 70% to the individual(s) involved.
        - 30% to the university for administrative and infrastructure costs.
    - Adjustments may be made based on the complexity and scale of the project.
3. **Approval Process:**
    - All consultancy projects must be approved by the university's designated committee or authority.
    - Agreements must specify project scope, deliverables, timelines, and financial arrangements.

3. Capacity Building Programmes

1. **Training for Teachers, Students, and Staff:**
    - Regular workshops and seminars on IPR, consultancy, and commercialization practices.
    - Specialized training on legal aspects of IPR, technology transfer, and drafting consultancy agreements.
2. **Collaboration with Experts:**
    - Partnerships with IPR attorneys, industry leaders, and funding agencies for knowledge sharing.
    - Access to mentorship and networking opportunities for capacity building.
3. **Awareness Drives:**
    - Organizing awareness campaigns on the importance of IPR and consultancy.
    - Disseminating success stories of consultancy projects and IP commercialization to motivate stakeholders.

Governance and Administration

1. **IPR and Consultancy Cell:**

- A dedicated cell will oversee all IPR and consultancy-related activities, including policy implementation, agreement approvals, and revenue sharing.
- The cell will act as a liaison between the university, creators, and external stakeholders.

2. **Monitoring and Review:**
   - Periodic reviews of the policy will be conducted to incorporate updates and address challenges.
   - Annual reporting on consultancy projects, IP filings, and revenue generated.

Implementation Framework

1. **Infrastructure Support:**
   - Setting up an IPR filing assistance desk and consultancy facilitation office.
   - Providing access to tools, software, and resources required for consultancy and IP creation.
2. **Financial Assistance:**
   - Allocating funds for IP filing and promotion.
   - Offering seed grants for exploratory consultancy projects.
3. **Documentation and Record Keeping:**
   - Maintaining detailed records of IP assets and consultancy projects for transparency
   - Ensuring confidentiality and compliance with legal agreements.

Revenue Utilization

- The university's share of revenue will be reinvested in research infrastructure, training programs, and promoting consultancy activities.

Accessibility and Transparency

- The policy will be available on the university's website under the "Research and Consultancy" section.
- Periodic updates and achievements will be shared with stakeholders via official channels.

Conclusion

This policy reflects the university's commitment to fostering a culture of innovation and professi engagement. By promoting IPR and consultancy, the university aims to contribute to societal economic development while empowering its stakeholders.

The university has commenced academic activities from session 2016-17 with various courses. The University is in the process to design its own milestone in the pursuit of social commitment and excellence reflecting by establishing world class practices. In this series, Bareilly International University has also taken step in promoting & developing value-based education and research work in field of Ayurveda which is the "Science of life" and an ancient Indian system of Medicine.

Rohilkhand Ayurvedic Medical College & Hospital offers B.A.M.S. course with admission capacity of 60 seats with successfully running 100 bedded Hospital. The college has highly qualified, well experienced, and caring faculty members having vast academic & industry exposure. Department of Rachana Sharir is well equipped with instruments, infrastructure, and availability of 3 cadavers at present to provide in-depth knowledge about structure of human body from both Ayurvedic & Modern medical point of view with regards to its treatment to be done/learnt in future. This is efficiently done through cadaveric dissections, dissected soft parts, models (more than 40), charts (more than 50), Specimens (more than 20) and available state of art communication equipment, under guidance of experienced faculties. Department is engaged in the study of Rachana Sharir/Anatomy, teaching prescribed in the Ayurvedic scriptures, modern aspects, charts, PPT, specimens and **PRACTICAL DISSECTION OF HUMAN BODY** which is an extremely important part in field of Rachana of "Sthool Sharir" Importance of 'Shava-vichchhedana' has been clearly stated in Ayurvedic texts as –

तस्मान्निःसंशयं ज्ञानं हर्त्रा शल्यस्य वाञ्छता |
शोधयित्वा मृतं सम्यग्द्रष्टव्योऽङ्गविनिश्चयः ||
प्रत्यक्षतो हि यद्दृष्टं शास्त्रदृष्टं चा यद्भवेत् |
समासतस्तदुभयं भूयो ज्ञानविवर्धनम् ||

A surgeon before practicing surgery should obtain detail knowledge of body parts by performing dissection. The knowledge obtained by studying the textbook and direct perception by performing dissection, enhances one's knowledge. Department has taken a step to conduct **PRATYAKSH - 2023**, a 6-day National Workshop on cadaveric dissection. Present workshop is a unique approach which provides opportunity to the participating delegates to perform the dissection under direct guidance of renowned experts (Ayurvedic & Modern) to enhance knowledge & clear their doubts.

ROHILKHAND AYURVEDIC MEDICAL COLLEGE AND HOSPITAL

BAREILLY

REPORT ON TWO DAYS TRAINING PROGRAM ON CCRAS STANDARDIZED PRAKRITI ASSESSMENT SCALE AND AYUR PRAKRITI WEB PORTAL AT ROHILKHAND AYURVEDIC MEDICAL COLLEGE & HOSPITAL, BAREILLY ON 17.05.2024 TO 18.05.2024

Registration of Participants:

The registration of the programme was done through online (google forms). The participants who were interested to participate in the program have registered themselves through the Google form link that was circulated in various whatsapp groups. Once the registration was completed the participants were informed by mail about their selection to participate in the program. The participants were contacted personally over phone in order to receive confirmation about their participation. On the first day of the program the participants were provided with a registration form and the details were collected.

First day of the program (17.05.2024):

Inaugural session: The training program was inaugurated by lighting the lamp by the hands of Dr. Amardeep Singh Nayak, Divisional Ayurveda and Unani Officer, Bareilly. Inagural address was delivered by the chief guest (Dr. Amardeep Singh Nayak) and Prof. (Dr). Rakesh Tewari, Principal RAMCH, Bareilly. The keynote address was delivered by Prof. (Dr). H S Rai, Professor Emeritus, Rohilkhand Ayurveda Medical College & Hospital, Bareilly. Dr. Vishal Agarwal, Admn Director, Dr. AK Srivastava (resource person 1) and Dr. Anjali B Prasad (resource person 2) have attended the function apart from the delegates.

The Program started with the session by Dr. Anjali B Prasad on Brief Introduction on Background and necessity of development of SOPs and validation of Prakriti Assessment Scale. The program continued on the first day as per the schedule.

The participants were made aware about the efforts by CCRAS and the scientists in standardizing and preparing SOP for Prakriti assessment. These sessions were interactive and

Rohilkhand Ayurvedic Medical
College & Hospital

the participants were made to understand on how the AYUR Prakriti Web Portal works, what are the parameters in the assessment scale, how to assess, etc using the SOP manual for Prakriti Assessment. By the end of the first day the participants were made to enroll themselves in the Web Portal.

Day two of the program (18.05.2024):

On the second day the resource persons provided hands on training to all the participants on Prakriti assessment. The participants were made in to groups with two members in each group. They were made to asses each other's Prakriti in the AYUR Prakriti Web Portal. The college has made available all the required resources like vernier calipers, Height – weight measuring instruments, Thermometer, and Sphygmomanometer for the program. The resource persons helped the participants wherever they required expert opinion and guidance.

By the end of the second day all the participants were able to asses Prakriti through the AYUR Prakriti Web Portal. The resource persons cleared all the doubts raised by the participants and also emphasized the participants to propagate the Prakriti Assessment tool.

The program was conducted as per the schedule (Schedule attached). The program ended with a valedictory function wherein the participants shared their feedback. The resource persons were felicitated and certificates were distributed to the participants. The vote of thanks was delivered by Prof. (Dr). Rakesh Tewari, Principal, RAMCH. The program ended with national anthem.

The college has provided a training kit (file containing 01 writing pad, 01 pen) high tea (twice in a day) and lunch on both the days of the program. The resource persons shared their satisfaction regarding the arrangements made, especially the hospitality and the audio visual arrangements in the valedictory function.
