4.1.1 The Institution has adequate physical facilities for teaching –learning, skills acquisition etc.

Faculty of Paramedical Sciences, Bareilly International University

Report on Adequacy of Physical Facilities for Teaching, Learning, and Skills Acquisition

1. Introduction

The Faculty of Paramedical Sciences at Bareilly International University (BIU) is committed to providing high-quality education through **state-of-the-art physical facilities** that support teaching, learning, and skills acquisition. The institution ensures that students receive **theoretical knowledge, practical training, and clinical exposure** in a well-equipped environment. The infrastructure is designed to meet the requirements of **modern paramedical education** while maintaining compliance with regulatory standards.

This report highlights the adequacy of **classrooms, laboratories, clinical training facilities, library, ICT resources, research infrastructure, and student amenities** that contribute to the holistic development of paramedical students.

2. Classroom and Lecture Hall Facilities

Well-Equipped Classrooms

- Faculty of Paramedical Sciences provides **spacious, well-ventilated, and well-lit classrooms** with modern teaching aids.
- **Smart classrooms** are integrated with **projectors, audio-visual aids, and whiteboards** to enhance interactive learning.
- Seating arrangements are designed for **comfort and visibility**, ensuring an engaging learning experience.

Seminar and Conference Halls

- The **fully equipped seminar halls** are used for **guest lectures, academic conferences, and student presentations.**
- **Multi-media facilities** support PowerPoint presentations, video demonstrations, and live webinars with industry experts.

3. Laboratory Facilities for Practical Training

Hands-on learning is an essential part of paramedical education. BIU offers **well-equipped, discipline-specific laboratories** that allow students to develop practical skills.

A. Medical Laboratory Technology (MLT) Labs

- Fully equipped **biochemistry, pathology, hematology, and microbiology laboratories.**
- Availability of **automated analyzers, microscopes, centrifuges, spectrophotometers,** and other essential diagnostic tools.

ASHANT

Principal

FACULTY OF PARAMEDICAL SCIENCE

BAREILLY

- Hands-on training in **sample collection, testing, and result interpretation.**

B. Radiology & Imaging Technology (RIT) Labs

- Modern **X-ray machines, ultrasound units, CT scan and MRI simulators** for student training.
- Training in **radiographic techniques, patient positioning, and image analysis.**

C. Physiotherapy Lab

- Advanced **electrotherapy, hydrotherapy, and rehabilitation equipment.**
- Dedicated space for **musculoskeletal, neurological, and cardiopulmonary physiotherapy training.**

D. Optometry Lab

- Fully equipped with **auto-refractometers, retinoscopes, trial lens sets, and slit lamps.**
- Training in **vision assessment, spectacle prescription, and eye screening techniques.**

E. Anatomy and Physiology Lab

- **Cadaveric models, mannequins, and dissection kits** for learning human anatomy.
- **Physiology lab** for hands-on training in **cardiovascular, respiratory, and nervous system functions.**

---

4. Clinical Training Facilities at the Teaching Hospital

A. Outpatient and Inpatient Training

- **Large patient inflow** ensures exposure to **diverse clinical cases** across multiple specialties.
- Students gain practical experience in **patient care, diagnostics, and rehabilitation.**

B. Operation Theaters and Critical Care Units

- Students in relevant fields observe and assist in **surgeries, emergency care, and intensive care management.**
- Hands-on training in **infection control, anesthesia assistance, and post-operative care.**

C. Blood Bank and Pathology Units

- **Fully functional blood bank** where students learn **blood grouping, cross-matching, and storage techniques.**
- Hands-on training in **histopathology and cytology procedures.**

FACULTY OF PARAMEDICAL SCIENCES ASHANT BAREILLY

D. Diagnostic Centers and Imaging Facilities

- State-of-the-art **radiology and pathology labs** where students practice **diagnostic imaging techniques.**
- Training in **interpretation of X-rays, CT scans, MRIs, and ultrasound reports.**

---

5. Library and E-Resources

The **Central Library** at BIU provides extensive resources for paramedical students:

- **Collection of 10,000+ books, journals, and research papers** related to medical and paramedical sciences.
- **Subscription to national and international medical journals** for academic research.
- **Digital library with access to e-books, online journals, and medical databases.**
- **Quiet study zones, discussion rooms, and research support facilities.**

6. ICT and E-Learning Resources

A. Learning Management System (LMS)

- Students can access **lecture notes, recorded sessions, assignments, and assessments** online.
- **24/7 accessibility** to academic content via the BIU LMS platform.

B. Computer Labs and Internet Facilities

- Well-equipped **computer labs with high-speed internet** for research and project work.
- **Wi-Fi enabled campus** for easy access to online resources.

C. Virtual and Simulation-Based Learning

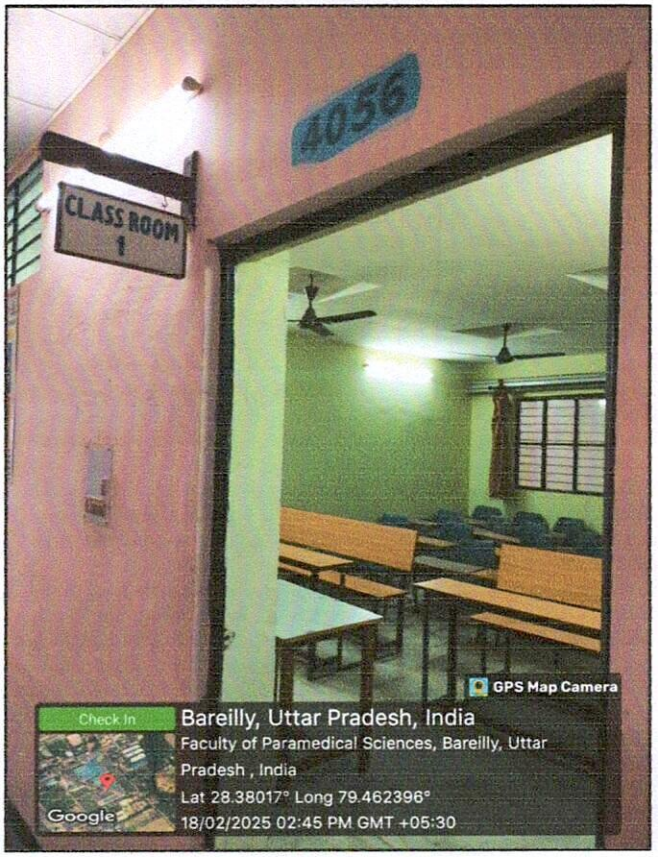

- **Medical simulation labs** for practicing **emergency response, critical care, and surgical procedures.**
- Virtual patient case studies enhance **clinical decision-making skills.**

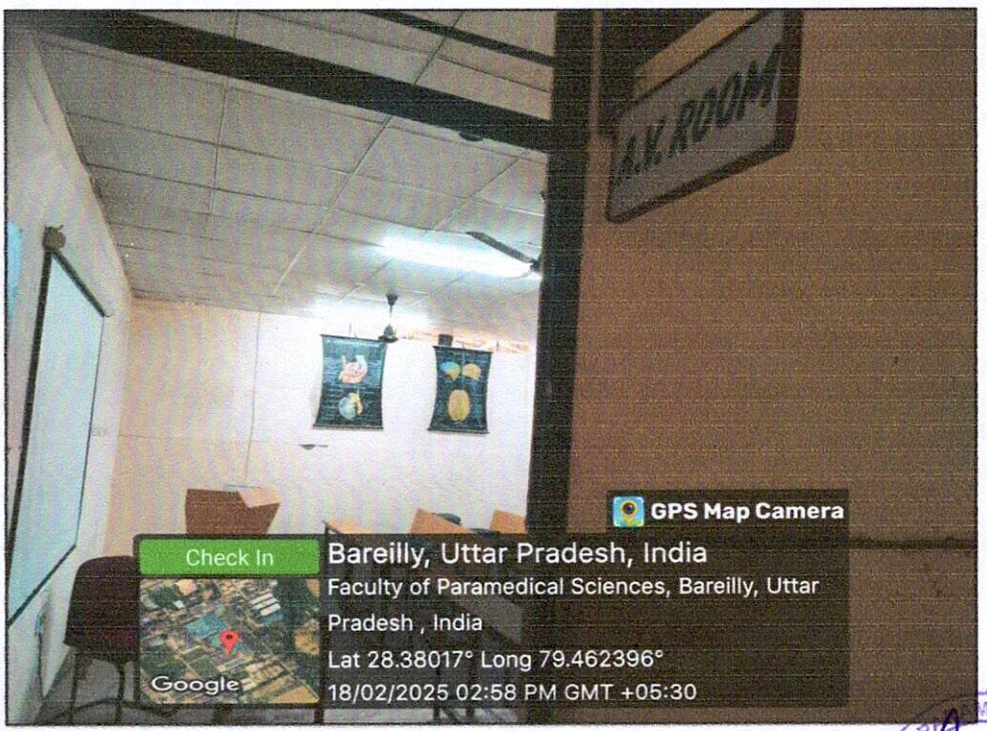

---

7. Research and Innovation Infrastructure

- **Dedicated research labs** for faculty and students to engage in **innovative projects and publications.**
- **Collaboration with hospitals, diagnostic centers, and research institutions** for clinical research.
- **Funding support for student research projects and conference participation.**

8. Student Support and Recreational Facilities

A. Hostel and Accommodation

- Separate hostels for boys and girls with secure, comfortable living spaces.
- Mess facilities providing nutritious meals.

B. Sports and Fitness Facilities

- Indoor and outdoor sports facilities including a gym, badminton, and football ground.
- Yoga and meditation centers for student well-being.

C. Medical and Counseling Support

- On-campus medical support with doctors and emergency care.
- Student counseling and mentorship programs for academic and personal growth.

9. Safety and Hygiene Measures

- Strict sanitation protocols to maintain clean classrooms, labs, and hospital areas.
- CCTV surveillance, fire safety measures, and security personnel for student safety.
- Emergency evacuation plans and first-aid training sessions.

10. Conclusion

The Faculty of Paramedical Sciences at Bareilly International University ensures that students receive a well-rounded education through modern physical facilities. The institution continuously upgrades its teaching infrastructure, laboratory resources, hospital facilities, and digital learning platforms to maintain high academic standards.

With state-of-the-art labs, well-equipped hospitals, digital learning tools, research facilities, and strong student support systems, BIU remains dedicated to producing skilled and competent paramedical professionals ready to excel in the healthcare sector.

A University ERP Software

Bareilly International University

Prepared By : Sharad Srivastava

Doc Ver : 1.0 Dated : 27 Feb. 23

Principal
BAREILLY

Date : 27/02/2023
Ref No: 005/22-23

To,

The Chancellor
Bareilly International University
Bareilly

Sir,

We feel immensely pleasured for the opportunity given to us to present ourselves for the development of University ERP software (UERP).

Attached with are 1st Copy of some suggested key points for the software (UERP)

Any other requirements can be discussed amicably with will be incorporated into with our suggested points in the same cost.

Looking forward to serving your prestigious organization.

For Nuix Technologies Pvt. Ltd.

SIS (Student Information System)

Student information systems (SIS) store and track all student information, including grades, attendance records, and more. The software functions as a digital drop box for school-related information. SIS software has become a vital tool for both educational institutions as well as parents and students, who use it to gain access to student information, make payments, and communicate with school functionaries.

SIS are used by teachers, students, and parents to access all relevant information pertaining to a student's schooling. SIS software is leveraged for a few different functions; the main two being as a channel of communication and as a place to store student information.

SIS Benefits / Features:

There are a variety of benefits associated with our student information systems for parents and students as well as educational institutions and their staff. We provide channels for communication between school officials and students, act as a singular source of student-related information, streamline billing processes, and more. Some key features of our SIS are...

Information management — This is the primary feature of the our software; an SIS houses everything from medical records to addresses.

Reporting — This feature allows users to manipulate the information housed in the solution and generate reports.

Admissions management — This feature manages the entire admissions process in your SIS, from application to tours to acceptance and tuition payment.

Billing and payment — We provide student billing functionality through the application as well as allow them to pay their bills via the system.

Student information management — With our SIS, teachers and administrators can manage all student-related information, including medical history, emergency contacts, attendance, and grades.

CIN: U72200HR2021PTC098069

Student portal — Students use the portals to track their own performance, including attendance and grades. The portal also acts as an open channel of communication, which students can use to communicate with their teachers.

Parent portal — Our SIS includes parent portals, which parents can use to track their kids progress, attendance, and behaviour. Parents can also use the portal to maintain communication with the administration as well as with their children's teachers.

Registration and scheduling — Our SIS has course registration and scheduling features built in, so students can sign up for courses via the application.

Gradebooks— Teachers can keep a comprehensive gradebook for all their students and manage all grade-related activity.

Easy scheduling of examinations — Scheduling of examination dates can be easily handled by our SIS. It correlates all details such as availability of teachers and completion of book syllabus fixed for the term before announcing the examination dates. Details about records of all written examinations, appraisals on the papers, marks or grades offered, and educational headway made by the students can be recorded for easy retrieval.

LMS (Learning Management System)

Online Course Material : Learning management systems (LMSs) are platforms designed to help instructors manage educational coursework online. They provide educators with a single platform for making course material accessible online, including lesson content, assignments, and assessments. LMSs are used to help streamline the delivery of online learning for educational institutions, allowing for a more connected and accessible educational experience for students.

An LMS enables instructors to build digital courses that include various types of content, such as syllabi, lectures, multimedia files, and readings, as well as distribute assignments to students.

Online assessment functionality, such as quizzes and tests. Communication features enable instructors to communicate with students and parents via direct messages, mobile notifications, and discussion forums.

Some key features of LMS:

- Provide a platform for educators to deliver online course content to students.
- Distribute assignments to students and allow instructors to grade student work.
- Administer digital assessments to students.
- Facilitate individualized feedback on student work, such as through written comments or grading rubrics.
- Generate performance dashboards for tracking student progress.
- Contain gradebook functionality.
- Webinar Integration.

Faculty of Forensic Science

List of Instrument/Equipment Requirements

S. No.	Particulars	Specifications	Quantity	Tentative Cost
1.	Refractometer	LABART	01	1,156 to 2000/-
2.	Mannequins (Male & Female)	Complete body for crime scene	02	5000 to 10000/-
3.	**Forensic PhotographyKit** with DSLR camera, lenses, filters, external light source, stands, battery, memory cards etc.	Cannon or Nikon with different lenses	01	25,000 to 48,000/-

→ forensic course.
