4.2.2 Describe the adequacy of both outpatients and inpatients in the teaching hospital during the last five years vis-a-vis the number of students trained and programmes offered (based on HIMS / EMR) within 500 words.

Response:

Bareilly International University: Comprehensive Educational and Clinical Services

Bareilly International University (BIU) offers a wide range of educational programs across its constituent colleges, training over 3,000 students each year. The university's hospitals are equipped with advanced diagnostic and therapeutic services, ensuring effective healthcare delivery to the community.

Outpatient Services

The outpatient department (OPD) operates daily from 9:00 AM to 5:00 PM, featuring dedicated consultation rooms for faculty and spaces for clinical learning. A highly qualified team of doctors provides patient care at affordable rates, with an average of 2,070 patients visiting the OPD daily. Students gain invaluable experience in patient management through direct interaction, and specialty OPDs allow deeper insights into specific medical conditions.

Inpatient Facilities

The hospital houses 1,450 inpatient beds, offering comprehensive specialty and superspecialty services for both outpatient and inpatient care. Bedside teaching and interactive sessions take place in various demonstration rooms adjacent to the wards, enabling students to develop clinical and communication skills under the guidance of experienced faculty. Postgraduate students play an active role in managing ward patients, enhancing their clinical expertise and professionalism.

The hospital features advanced surgical suites capable of performing both minor and complex surgeries. Intensive care units (ICUs), including ICCU, Surgical ICU, PICU, and NICU, provide a total of 200 beds for critically ill patients. These units are equipped with multi-parameter monitors, ventilators, defibrillators, and dialysis facilities, offering essential hands-on training for undergraduate and postgraduate students in the management of critically ill patients.

Nursing Education

Clinical experience is fundamental to nursing education at BIU. Nursing students rotate through various inpatient and outpatient departments, where they assess patients, perform clinical procedures, and assist in preventive, diagnostic, and therapeutic activities. This rotation, under faculty supervision, not only develops clinical competence but also imparts

Email: info@biu.edu.in Website: www.biu.edu.in

knowledge on health and nursing service organization, quality assurance, and workforce management.

Physiotherapy and Occupational Therapy

Both outpatient and inpatient physiotherapy and occupational therapy services are available. Undergraduate and postgraduate students in these fields are posted across different departments to learn various rehabilitative measures. Experienced faculty from the Physiotherapy and Occupational Therapy colleges, along with specialists from other departments, provide hands-on training that emphasizes early detection, disability prevention, and management of various disorders.

Patient Statistics and Technology Integration

Over the past five years, the hospital has served approximately 700,000 to 800,000 outpatient visits annually, while 90,000 to 95,000 patients are admitted each year. This significant patient volume underscores the hospital's vital role in the community.

The university and hospital utilize advanced Hospital Information Management Software for efficient governance. Additionally, Microsoft NAV 2016 ERP software aids in planning, development, administration, and monitoring of hospital operations and constituent colleges.

Through these comprehensive services, Bareilly International University not only ensures quality education for its students but also significantly contributes to the health and well-being of the community.

Summarized report of the OPD and IPD data from Rohilkhand Medical College & Hospital, Bareilly, for the years 2020 to 2024:

Annual OPD & IPD Statistics

Year	Total OPD	Total IPD (Admissions)	Remarks
2020	115,311	7,955	COVID-19 Level-2 Hospital (Apr-Dec)
2021	311,042	22,057	COVID-19 Level-2 Hospital (Jan-Feb & Apr-Oct)
2022	608,158	34,772	—
2023	629,446	35,940	—
2024	648,102	37,680	—

Observations

- There is a **steady increase in OPD and IPD numbers** from 2021 onward, reflecting likely normalization post-COVID disruptions.
- **2020 and 2021** showed significantly lower numbers due to the hospital's role as a **dedicated COVID-19 Level-2 facility**.
- **OPD increased by ~108%** from 2021 to 2022, and by **~111%** from 2020 to 2021.
- **IPD admissions more than tripled** from 2020 to 2022.

Rohilkhand Medical College and Hospital, Bareilly

Staff
Training

Details of Staff Training Initiative

Comprehensive Training Modules for Capacity Building and Quality Improvement

As part of its commitment to continuous improvement in healthcare delivery and compliance with **NABH accreditation standards**, Rohilkhand Medical College and Hospital (RMCH), Bareilly, has designed a structured and holistic training program covering key clinical, administrative, and support service domains. This initiative aims to equip healthcare personnel with the necessary knowledge, skills, and practices that ensure patient safety, operational excellence, and legal compliance.

The training calendar spans multiple departments and staff categories, ensuring inclusive participation and professional growth across the institution.

Training Topics Overview

- 1. NABH Standards & Quality Management Systems (QMS)**
An introduction to hospital quality frameworks, NABH accreditation standards, and implementation of quality indicators across departments.
- 2. Hospital Infection Control**
Focuses on the prevention and control of Healthcare-Associated Infections (HAIs), use of personal protective equipment (PPE), sterilization techniques, hand hygiene, and outbreak response.
- 3. Biomedical Waste Management (BMW Rules 2016, Amended 2018)**
Covers the classification, segregation, pre-treatment, storage, and disposal of biomedical waste in compliance with regulatory norms.
- 4. Disaster Management & Triage Process**
Prepares staff for internal and external disasters, triage protocol, departmental alertness, and coordination during mass casualty events.
- 5. Accident and Emergency Management**
Emphasizes structured emergency response, planning, equipment readiness, physical layout of emergency departments, and medico-legal considerations.
- 6. Management of Emergency Codes**
Trains staff on hospital emergency code protocols including Code Red (Fire), Code Blue (Cardiac Arrest), Code Pink (Infant Abduction), Code Yellow (Disaster), and Code Orange (Hazmat).
- 7. Ward Management & Vulnerable Patient Care**
Addresses patient identification, special care needs of vulnerable populations, and adherence to International Patient Safety Goals (IPSG).
- 8. Blood Transfusion, Patient Care & Catheterization**
Provides guidelines on safe blood transfusion practices, catheter care, and coordination with blood bank services.
- 9. Facility Management & Patient Safety**
Introduces procedures for maintaining infrastructure safety, managing sentinel and adverse events, and promoting a safe care environment.

10. **Medication Management**

Covers inventory control, reporting of adverse drug reactions, prevention of medication errors, and documentation standards.

11. **Restraint Policy**

Educates staff on the ethical use and documentation of physical and chemical restraints for patient safety.

12. **Medical Record Policy and Management**

Emphasizes accurate, complete, and confidential management of medical records in compliance with legal and clinical standards.

13. **Departmental Policies and SOPs**

Trains all staff categories on department-specific standard operating procedures to ensure operational consistency.

14. **Auxiliary Department Management**

Includes training in F&B services, gas manifold handling, electrical and equipment safety, and consumables store management.

15. **ACLS/BLS (Advanced and Basic Life Support)**

Critical life-saving training to prepare selected and general staff in managing cardiac/respiratory emergencies, emergency team coordination, and documentation.

16. **Operation Theatre Management**

Teaches OT zoning, cleaning and sterilization routines, infection control measures, equipment handling, and patient transfer protocols.

17. **Documentation Practices**

Orientation on patient case files, consent forms, treatment records, and use of standardized hospital formats.

18. **Laboratory Services**

Focus on laboratory safety, hazardous chemical storage, laboratory waste management, documentation, and operational workflows.

19. **Radiology Services**

Includes radiation safety, equipment handling, and proper record maintenance to ensure diagnostic accuracy and patient protection.

20. **Linen and Laundry Services**

Covers linen lifecycle, classification, laundering methods, infection prevention, and equipment use within laundry operations.

21. **Housekeeping Services**

Focuses on maintaining hygiene and cleanliness standards, use of disinfectants, and standard protocols for various hospital zones.

Training Implementation Approach

- **Trainer Involvement:** Initial sessions are conducted by senior consultants from *HospiQ Healthcare Solution*. Follow-up training is carried out by in-house **Master Trainers**.
- **Material Support:** All training content and materials are standardized and provided by *HospiQ Healthcare Solution*.
- **Refresher Training:** Periodically scheduled to reinforce critical knowledge and address evolving hospital needs.
- **Methodology:** Includes lectures, practical demonstrations, case scenarios, assessments, and group discussions.

Outcome Goals

- Compliance with NABH and other healthcare standards
- Strengthened infection control and emergency preparedness
- Improved patient safety and clinical documentation
- Enhanced interdepartmental coordination and efficiency
- Empowered and informed hospital workforce
