Fellowship Philosophy

In the operation room, the fellows are exposed to a variety of traditional as well as cutting-edge surgical techniques. The fellows graduate with technical proficiency in spinal decompression, spinal instrumentation (both free-hand and using navigation), and advanced spinal reconstruction techniques (PSO, VCR and Multi-Level Corpectomies, Scoliosis Surgeries). Fellows are also trained in novel techniques such as minimally-invasive spine surgery (MIS TLIF and Endoscopic Spine Surgery), lateral access surgery lumbar & thoracic (lateral interbody fusion) and laminoplasty etc. In addition to the robust operative experience, fellows master comprehensive evaluation of the spine patient through mentored clinic experiences.

Hands-on Experience

Hybrid Learning

Analytical Thinking

Wide Clinical Exposure

Univ. Accreditation

Cadaver Lab

About Course Director

Dr. Varun Agarwal is a consultant orthopaedic and spine specialist. He has established Inda's first Orthospine center with O-arm 3D navigation in Bareilly. He is the first spine surgeon in UP to do O-arm navigation based spine surgeries. He is the first spine specialist in Rohilkhand region to do tubular retractor based minimally invasive spine surgeries. His special interests are Minimally Invasive Spinal Surgery, cervical spine surgery, Key hole spine surgery, navigation based spine surgeries, Deformity Correction, Artificial Disc Replacement, Revision Spinal Surgery etc.

He has worked in AIIMS trauma center, and has trained in spine surgery in **Austria, Switzerland (Europe), Mumbai**. He has attended seminars and conferences all around the world.

He is AO Spine faculty for AO Spine online diploma programme. He is also a regular faculty for various national & international spine training programmes.
