CENTRAL RESEARCH LABORATORY/CENTRAL RESEARCH FACILITY

Year of Established: 2010

- PCR (Infectious Disease)
- Multiplex PCR Panel
- Serology ELISA Tests
- Non- Infectious PCR
- Culture & Drug susceptibility studies
- Real-Time PCR, NAAT, DNA Hybridization assays, EVOS FL Auto microscope, Immunological assays and Culture and Drug susceptibility studies.
- Multiplex ligation dependent probe amplification (MLPA), Cytogenetic microarray (CMA) or gene sequencing.
- Screening for chromosomal disorders in fetus via prenatal invasive testing chorionic villous sampling and amniocentesis for confirmation of chromosomal disorder
- Personal Genome Machine (PGM) is being used for the study of Cancer Genetics, Microbial Genetics and other diseases.
- The Gradient PCR is mainly used for Research Purposes.

CENTRAL RESEARCH MOLECULAR LABORATORY

(INFECTIOUS DISEASE, RESEARCH AND DIAGNOSTICS)

BIU; CRL Molecular lab has state of the art molecular research facility for all interdisciplinary studies. The thrust area to run this lab is its own R&D programs in technology development, assay development and biomarker discovery. This lab is equipped with cutting edge technologies like Real-Time PCR, NAAT, DNA Hybridization assays, EVOS FL Auto microscope, Immunological assays and Culture and Drug susceptibility studies.

As a healthcare organization, we are conscious of our responsibility to reduce the test cost burden on the society. We aim to achieve this objective with increased efficiency and productivity gained from a centralized processing laboratory, which is in line with the Vision and Mission of our Institute.

ANIMAL HOUSE

Year of Established: 2023

Animal House was established in BIU under medical college in the year 2023. It has recently been relocated to newer premises. This is a vital area for the research aspect in animal studies. Animal House is divided into separate areas for storage of experimental animals, washing, storage and procedural rooms as per the norms of CPCSEA, Government of India.

MUSEUM

Year of Established: 2006

- Museum of the department includes specimens, charts, educational articles, interesting case studies, plates & models.
- The catalogue system in museum is maintained according to MCI criteria with well-equipped demonstration rooms, which are well ventilated and spacious.
- The histological lab also has modern microscopes with all different types of slides for teaching purpose.
- Forensic medicine and toxicology department has its museum, which showcases different type of weapons, toxicology samples, osteology samples for bone age and sex determination, preserved organs, to name a few.
- Various departments of dental college consist of museums consisting of models and charts describing about importance and maintenance of oral hygiene, about tooth development process, about various dental procedures and dental anomalies. These charts and models are useful for the knowledge disbursement of dental student as well as for the patient's education.
